Cardiff City Football Club Limited

Non-Executive Chairman's Statement
For the Year Ended 31 May 2025

Season 2024/25

Following Omer Riza's appointment as first team coach on an interim basis this was followed up by his appointment on a permanent basis through to the end of the 2024/25 season.

While there were some positive results, overall, the trajectory was a slide into the relegation places, we were never able to string enough positive results together to generate the momentum to pull away from the relegation zone.

While fully supporting Omar and giving him all the time we could to turn our fortunes around, the Board had to take drastic action which resulted in the Board having to make the difficult decision with only 3 games of the season remaining to terminate Omar's role and ask Aaron Ramsey to step into that position for the final 3 games of the season as a last and final attempt to escape the spectre of relegation to League 1.

Unfortunately, despite the best efforts of Aaron and his team this proved to be unattainable and relegation was duly confirmed at our last home league game of the season with just one game remaining.

The Board were extremely grateful to the effort and commitment of Omar, and his support team, and to Aaron for stepping into the breach at the last moment to try and stave off relegation. We wish them both success in their future careers.

Relegation was not what anyone had anticipated or expected at the start of the season but despite the unfailing commitment of everyone involved at the Club we now had to accept the reality of the situation and face the spectre of playing football in the 3rd tier for the 1st time in nigh on over 20 years.

While undeniably the reality of relegation shook the Club to its core and took some time to accept, we then immediately went through an internal process of review as to what went wrong and what actions and changes, we as a Club had to make to ensure that we could return to the Championship at the first available opportunity.

Season 2025/26

The immediate challenge we faced as we entered League 1 was the incredibly significant drop in turnover and the actions that by necessity had to be taken around the Club's cost base to bridge that gap.

While relegation clauses contained in most of our players contracts provided an immediate hedge against the loss of income we still had to look very carefully at the size and structure of our 1st team squad and reduce costs thereof while maintaining competitive in League 1.

Part of this period of reflection was in ensuring that we appointed the right 1st team coach to take the Club forward and implement our strategy for immediate promotion and set the Club up for sustained success in future years.

As a Board we knew the qualities in the new coach that we were looking for and following extensive searches involving internal staff and external advisers utilising their football knowledge we were delighted to be able to conclude negotiations with Brian Barry Murphy and announce his appointment as 1st team coach on the 16th June 2025.

Brian's experience at Manchester City with their development squads and academy fitted exactly with our desire to make the CCFC Academy the focal point of our strategy for the future.

Brian's history of developing a clear path from the Academy to the 1st team has been seen immediately with the number of Academy players now forming not only part of our 1st team squad but also appearing as part of the starting 11 on match days. This only bodes well for the future of the Club.

This is a reflection as well on the work being carried out by the Academy under the leadership of Gavin Chesterfield and his staff following the relocation of the Academy to LLanrumney.

Non-Executive Chairman's Statement
For the Year Ended 31 May 2025

Season 2025/26 (continued)

However, we still had to attend to the balance of income with cost and once Brian was on board we set out on the restructuring of the 1st team squad resulting in a number of players who were coming to the end of their contracts being released.

Their replacement by promoted Academy players supplemented by strategic recruitment as required whether permanently or via seasonal loans has resulted not only in a slimming of our 1st team squad both in numbers and cost but also a reduction in the average age of the squad.

Season 2025/26 has started in an incredibly positive and encouraging way that reflects our new strategy as referred to earlier. At the dat of approval of the Annual report and Financial Statements, we currently sit top of league 1 having also enjoyed a run to the quarter finals of the Carabao Cup.

Everyone at the Club is clearly focused on what we need to do to maintain our position and continue our momentum through to the end of the season and achieve our immediate priority of a return to the Championship.

In respect of other matters around the Club:

- As reported last year the Club signed a 150-year lease with the Vale of Glamorgan Council on a 42-acre site for the construction of a new 1st team training base a short distance from our current base but one that will be wholly and exclusively for the use of the Club. While enabling works to the site have now been virtually completed, actual construction work has been placed on hold until our return to the Championship has been achieved. We look forward to such work commencing as soon as possible and hopefully in Q3 2026.
- In respect of the Club's dispute with Nantes around the transfer of Emiliano Sala the trial was finally heard in December 2025, and we are now expecting a decision from the court at the end of March 2026. As a Board we continue to be determined to do what is in the best and long-term interest of the Club to protect our position especially in a situation where the Club are and were the innocent party in the handling of the actual flight arrangements involving Emiliano Sala.
- 2025 has also seen the passing into law of the Football Regulation Bill and the establishment of the Independent Football Regulator (IFR).
  The IFR are currently going through the stages of establishing the working framework for the regulator and how it intends to apply its powers granted to it by the statute.
  The IFR is currently consulting with the Clubs via the EFL over the timetable for the introduction of the new Licensing Regime with the likelihood of provincial licenses being a requirement for season 2027/28 and a full license within 3 years after that.
  Other areas being consulted on include Corporate Governance, Fan Engagement and Financial Regulation
  We will continually be looking at these proposals over the period to ensure that our views are represented in these discussions.

Throughout the challenges faced by the Club over recent years including those resulting from relegation we have and will remain heavily reliant upon the continued financial support of our owner Tan Sri Dato' Seri Vincent Tan Chee Yioun.

As a Board and a Club, we as ever are extremely grateful for the continued support of our owner without which the future of the Club would look much more precarious.

I must take this opportunity to thank every person at the Club for their unwavering commitment and support throughout what has been and continues to be an immensely challenging environment and period for all those involved.

Non-Executive Chairman's Statement
For the Year Ended 31 May 2025

Season 2025/26 (continued)

Throughout it all your support and loyalty to the team out on the pitch has been undiminished and without question has been amazing to see and immensely appreciated by everyone at the Club.

We and the team do not take that support for granted and will do everything possible within our power to ensure that we continue to deserve that support for the remainder of this season as we face the challenges before us.

Thank you,

.....

M Dalman
Non-Executive Chairman

Date

Business review

	2025 £000	Restated 2024 £000
Turnover	**25,755**	22,996
Player salary costs	**29,190**	21,357
Profit on sale of player of registrations	**6,096**	829

The board considers the key performance indicators for the Company to be turnover, result from player trading and player salary costs.

The results show increased turnover from that reported in the prior year financial statements directly as a result of the increase in sponsorship, advertising and commercial income compared with the prior year.

The Company is reporting an operating loss for the year ended 31 May 2025 of £27,493,000 decreased by £180,000 from the £27,313,000 reported loss for the prior year ended 31 May 2024.

While the Company has significant net liabilities, the principal indebtedness at the year end was to the parent company undertaking and the ultimate controlling shareholder.

Other aspects of the business review are included in the Non-Executive Chairman's Statement.

Principal risks and uncertainties

The principal risks are associated with the performance of the team and the league in which the football club operates, as turnover and costs, particularly those from broadcasting and player costs respectively, vary substantially between the English Premier League and the Championship. The Company manages the impact of that risk through close control of its direct costs, relative to its forecast income.

Financial risk management objectives and policies

Management monitor and manage the financials risks relating to the operations of the Group through internal controls. These risks include currency risk, credit risk and liquidity risk.

Credit risk

The Company's principal financial assets are bank balances, cash and trade receivables. The Company's credit risk is primarily attributable to its trade receivables. Credit risk is managed by monitoring the aggregate amount and duration of exposure to any one customer depending upon their credit rating. The amounts presented in the statement financial position are net of allowances for doubtful debts, estimated by the Group's management based on prior experience and their assessment of the current economic environment.

The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies. The Company has no significant concentration of credit risk, with exposure spread over a significant number of counterparties and customers.

Liquidity risk

Ultimate responsibility for liquidity risk management rests with the Directors. The Directors use management information tools including budgets and cash flow forecasts to be able to constantly monitor and manage current and future liquidity.

The funding of the Company is through loans from the principal shareholder as disclosed in note 18.

Outlook

Our immediate aim is to gain promotion back to the Championship and from there regain our status in the English Premier League and maintain this for the foreseeable future.

This report was approved by the Board and signed on its behalf by:

Director

Date: 16 January 2026

Directors' Report
For the Year Ended 31 May 2025

The Directors present their report and the financial statements for the year ended 31 May 2025.

Principal activity

The principal activity of the Company is that of a professional football club incorporating the operation of a multi-use sports stadium.

Going concern

The Company's going concern assessment has been performed as part of the Group's going concern assessment. The Group meets its day–to-day working capital requirements through the use of operating cash flows and loans provided by the ultimate controlling party of the Group and other related parties.

The Company is a subsidiary of Cardiff City Football Club (Holdings) Limited and is the principal trading company in the Group.

The Group's business activities, together with the factors likely to affect its future development, performance and position are set out in the Directors' Report and the Strategic Report.

The Group and the Company continue to rely principally on the ultimate controlling party, as well as other loan holders for the provision of additional funding either as equity or loans, together with the non-recall of loans already advanced to the Group.

As of 31 May 2025, the Company reported net current liabilities of £308.4m (2024 as restated: £271.6m). In assessing the appropriateness of the going concern assumption, the directors have prepared detailed cash flow forecasts for the Group extending beyond 12 months from the date of approval of these financial statements. The Directors have also prepared a severe but plausible downside forecast. These forecasts show the requirement for additional funding to be raised over the forecast period in addition to the funding received up to the date of approval of these financial statements.

The Board acknowledges that the ongoing various and numerous external pressures that have arisen in recent years continue to impact football finances and the economy in general.

Projecting how long the economic uncertainty in these exterior factors will remain is challenging and how the economy responds and reacts will continue to have an impact on the Group's and the Company's forecasts.

While the Group and the Company continuously monitor the impact of these circumstances and other external factors on the income and cost base, and take all appropriate measures to reduce and mitigate its cost base from the impact of the circumstances outlined above, this has been and will continue to prove challenging.

The Directors of Cardiff City Football Club (Holdings) Limited have received a non-legally binding letter of support from the ultimate controlling party, indicating that this support will be forthcoming for not less than 12 months from the date of approval of these financial statements.

The Group and the Company are reliant on the ultimate controlling party for additional financial support and not recalling the existing loans owed by the Group and the Company. While a letter of support has been provided confirming these intentions, it is not legally binding and therefore does not guarantee that such support will be available. This indicates that a material uncertainty exists that may cast significant doubt on the Group's and the Company's ability to continue as going concerns, and therefore the Group and the Company may be unable to realise their assets and discharge their liabilities in the normal course of business.

The Directors have a reasonable expectation that the loans will not be recalled and that the additional funds required from the ultimate controlling party will be forthcoming. As a result, the Directors believe that the Group and the Company will continue as a going concern for a period of at least 12 months from the date of approval of these financial statements and have therefore prepared the financial statements on a going concern basis.

The financial statements do not include any adjustments that would result from the basis of preparation being inappropriate.

Results and dividends

The loss for the year, after taxation, amounted to £34,464,000 (2024: £11,558,000).

No dividends were declared or paid during the year (2024: £Nil).

Directors

The Directors who served during the year were:

S Borley
D M R M Caramella
D C S Chin
V K Choo
M Dalman

Professional indemnity

The Company maintains Directors' and Officers' liability insurance, which gives appropriate cover against any legal action that may be brought against the Company's Directors.

Internal control and risk management

The Directors are responsible for the Company's system of internal financial control. Although no system of internal financial control can provide absolute assurance against material misstatement or loss, the Company's system is designed to provide reasonable assurance that problems are identified on a timely basis and dealt with appropriately.

In carrying out their responsibilities the Directors have put in place a framework of controls to ensure as far as possible that ongoing financial performance is monitored in a timely manner, that corrective action is taken and that risk is identified as early as practically possible, and they have reviewed the effectiveness of internal financial control.

The Board, subject to delegated authority, review capital investment, player transactions, additional borrowing facilities, guarantees and insurance arrangements.

Financial risk management objectives and policies

Financial instruments are used for financing purposes only. It is Group policy not to trade in financial instruments. The details of financial risk management are included in note 18 of the financial statements.

The board of directors sets out the financial risk management policies that are implemented by the finance department. The Board considers that financial risks do not pose a major threat to the Group.

The business review and risk management policy are located in the Strategic Report.

Future developments

A review of future developments has been covered in the Non-Executive Chairman's Report.

Disclosure of information to auditor

Each of the persons who are Directors at the time when this Directors' Report is approved has confirmed that:

- so far as the Director is aware, there is no relevant audit information of which the Company's auditor is unaware, and
- the Director has taken all the steps that ought to have been taken as a Director in order to be aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Post balance sheet events

Subsequent to the year end and prior to signing of these financial statements, the Company has acquired player registrations totalling £1,490,147 of which £Nil is contingent upon one or more future events. These have been funded by the sale of player registrations and additional loans received.

Subsequent to the year end and prior to signing of these financial statements, the Company has sold player registrations with net proceeds totalling £1,458,852.

Subsequent to the year end and prior to signing of these financial statements, the Company has received funding of £2,250,000 in loans from unsecured borrowings. Loans totalling £4,500,000 have been repaid.

Additionally, amounts totalling £19,150,000 have been received. This funding is non-interest bearing with no requirement to pay.

The Company is involved in a legal dispute with Nantes regarding the transfer of Emiliano Sala. The Company has filed a lawsuit seeking damages amounting to €120 million. Given that, in the prior year, the Company sold a share of the proceeds in the case, even if the club were to be successful, the full €120m would not be paid to the club due to the terms of this previous arrangement. The outcome of the court case is uncertain, and the Company is awaiting the court's decision in March 2026.

Auditor

The auditor, BDO LLP, will be proposed for reappointment in accordance with section 485 of the Companies Act 2006.

This report was approved by the Board and signed on its behalf by:

.....
V K Choo
Director

Date: 16 January 2026

Directors' Responsibilities Statement
For the Year Ended 31 May 2025

The Directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under Company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent Auditor's Report to the Members of Cardiff City Football Club Limited

Opinion on the financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 May 2025 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements of Cardiff City Football Club Limited ("the Company") for the year ended 31 May 2025 which comprise Statement of Comprehensive Income, Balance Sheet, Statement of Changes in Equity and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland.*

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Material uncertainty related to going concern

We draw attention to Note 2.3 to the financial statements, which indicates that the Company is reliant on the ultimate controlling party for the provision of additional funding together with the non-recall of loans already advanced to the Company. While a letter of support from the ultimate controlling party has been provided confirming these intentions, it is not legally binding and therefore does not guarantee that such support will be available. As stated in Note 2.3, these events or conditions, along with other matters as set forth in Note 2.3, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. The financial statements do not include any adjustments that would result if the Company were unable to continue as a going concern. Our opinion is not modified in respect of this matter.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The Directors are responsible for the other information. The other information comprises the information included in the Annual Report and Financial Statements, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Other Companies Act 2006 reporting

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report or the Directors' Report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of Directors

As explained more fully in the Directors' Responsibilities Statement, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Extent to which the audit was capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

Non-compliance with laws and regulations
Based on:

- Our understanding of the Company and the industry in which it operates;
- Discussion with management and those charged with governance; and
- Obtaining an understanding of the Company's policies and procedures regarding compliance with laws and regulations.

We considered the significant laws and regulations to be the applicable accounting framework and UK tax legislation.

The Company is also subject to laws and regulations where the consequence of non-compliance could have a material effect on the amount or disclosures in the financial statements, for example through the imposition of fines or litigations. We identified such laws and regulations to be the Companies Act, employment legislation, the English Football League rules and health and safety legislation.

Our procedures in respect of the above included:

- Making enquiries of management and the board of directors for any instances of non-compliance with laws and regulations;
- Review of correspondence with tax authorities for any instances of non-compliance with laws and regulations;
- Involvement of tax specialists in the audit;
- Review of financial statement disclosures and agreeing to supporting documentation; and
- Review of legal expenditure accounts to understand the nature of expenditure incurred.

Fraud
We assessed the susceptibility of the financial statements to material misstatement, including fraud. Our risk assessment procedures included:

- Enquiry with management and those charged with governance regarding any known or suspected instances of fraud;
- Obtaining an understanding of the Company's policies and procedures relating to:
  - Detecting and responding to the risks of fraud; and
  - Internal controls established to mitigate risks related to fraud.
- Review of minutes of meeting of those charged with governance for any known or suspected instances of fraud;
- Discussion amongst the engagement team as to how and where fraud might occur in the financial statements;
- Performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud; and
- Considering remuneration incentive schemes and performance targets and the related financial statement areas impacted by these.

Auditor's responsibilities for the audit of the financial statements (continued)

Extent to which the audit was capable of detecting irregularities, including fraud (continued)

Fraud (continued)
Based on our risk assessment, we considered the areas most susceptible to fraud to be management override of controls and revenue.

Our procedures in respect of the above included:

- Testing a sample of journal entries throughout the year, which met a defined risk criteria, by agreeing to supporting documentation;
- Assessing significant estimates made by management for bias or judgement that represented a risk of material misstatement due to fraud.

We also communicated relevant identified laws and regulations and potential fraud risks to all engagement team members who were all deemed to have appropriate competence and capabilities and remained alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.

Our audit procedures were designed to respond to risks of material misstatement in the financial statements, recognising that the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery, misrepresentations or through collusion. There are inherent limitations in the audit procedures performed and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we are to become aware of it.

A further description of our responsibilities is available on the Financial Reporting Council's website at: https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our Auditor's Report.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an Auditor's Report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

V K Choo
Director

Date: 16 January 2026

The notes on pages 18 to 51 form part of these financial statements.

Cardiff City Football Club Limited

Statement of Changes in Equity
For the Year Ended 31 May 2025

	Called up share capital	Share premium account	Revaluation reserve	Profit and loss account	Total equity
	£000	£000	£000	£000	£000
At 1 June 2024 (as previously stated)	2,016	926	61,237	(247,213)	(183,034)
Prior year adjustment (note 25)	-	-	-	(3,648)	(3,648)
At 1 June 2024 (as restated)	2,016	926	61,237	(250,861)	(186,682)
Comprehensive expense for the year					
Loss for the year	-	-	-	(34,464)	(34,464)
At 31 May 2025	2,016	926	61,237	(285,325)	(221,146)

Statement of Changes in Equity
For the Year Ended 31 May 2024

	Called up share capital	Share premium account	Revaluation reserve	Profit and loss account	Total equity
	£000	£000	£000	£000	£000
At 1 June 2023 (as previously stated)	2,016	926	60,949	(235,964)	(172,073)
Prior year adjustment (note 25)	-	-	-	(3,339)	(3,339)
At 1 June 2023 (as restated)	2,016	926	60,949	(239,303)	(175,412)
Comprehensive expense for the year					
Loss for the year (as restated)	-	-	-	(11,558)	(11,558)
Deferred tax on revaluation	-	-	288	-	288
At 31 May 2024 (as restated)	2,016	926	61,237	(250,861)	(186,682)

The notes on pages 18 to 51 form part of these financial statements.

1. General information

The Company is a United Kingdom private company limited by shares. It is both incorporated and domiciled in England and Wales, with company number 00109065. The registered office address is Cardiff City Stadium, Leckwith Road, Cardiff, CF11 8AZ.

These financial statements are presented in Pounds Sterling (GBP), as that is the currency in which the majority of the Company's transactions are denominated. They comprise the financial statements of the Company for the year ended 31 May 2025 and are presented to the nearest thousand pound (£'000).

The Company has determined that GBP is its functional currency, as this is the currency of the economic environment in which the Company predominantly operates.

The principal activity of the Company during the year was that of a professional football club incorporating the operation of a multi-use sports stadium.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention, except for the revaluation of the stadium, unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies (see note 3).

The following principal accounting policies have been applied:

2.2 Financial Reporting Standard 102 - reduced disclosure exemptions

The Company has taken advantage of the following disclosure exemptions in preparing these financial statements, as permitted by the FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland":

- the requirements of Section 7 Statement of Cash Flows;
- the requirements of Section 3 Financial Statement Presentation paragraph 3.17(d);
- the requirements of Section 11 Financial Instruments paragraphs 11.42, 11.44 to 11.45, 11.47, 11.48(a)(iii), 11.48(a)(iv), 11.48(b) and 11.48(c);
- the requirements of Section 12 Other Financial Instruments paragraphs 12.26 to 12.27, 12.29(a), 12.29(b) and 12.29A; and
- the requirements of Section 33 Related Party Disclosures paragraph 33.7.

This information is included in the consolidated financial statements of Cardiff City Football Club (Holdings) Limited as at 31 May 2025 and these financial statements may be obtained from https://find-and-update.company-information.service.gov.uk/company/04044254.

2. Accounting policies (continued)

2.3 Going concern

The Company's going concern assessment has been performed as part of the Group's going concern assessment. The Group meets its day–to-day working capital requirements through the use of operating cash flows and loans provided by the ultimate controlling party of the Group and other related parties.

The Company is a subsidiary of Cardiff City Football Club (Holdings) Limited and is the principal trading company in the Group.

The Group's business activities, together with the factors likely to affect its future development, performance and position are set out in the Directors' Report and the Strategic Report.

The Group and the Company continue to rely principally on the ultimate controlling party, as well as other loan holders for the provision of additional funding either as equity or loans, together with the non-recall of loans already advanced to the Group.

As of 31 May 2025, the Company reported net current liabilities of £308.4m (2024 as restated: £271.6m). In assessing the appropriateness of the going concern assumption, the directors have prepared detailed cash flow forecasts for the Group extending beyond 12 months from the date of approval of these financial statements. The Directors have also prepared a severe but plausible downside forecast. These forecasts show the requirement for additional funding to be raised over the forecast period in addition to the funding received up to the date of approval of these financial statements.

The Board acknowledges that the ongoing various and numerous external pressures that have arisen in recent years continue to impact football finances and the economy in general.

Projecting how long the economic uncertainty in these exterior factors will remain is challenging and how the economy responds and reacts will continue to have an impact on the Group's and the Company's forecasts.

While the Group and the Company continuously monitor the impact of these circumstances and other external factors on the income and cost base, and take all appropriate measures to reduce and mitigate its cost base from the impact of the circumstances outlined above, this has been and will continue to prove challenging.

The Directors of Cardiff City Football Club (Holdings) Limited have received a non-legally binding letter of support from the ultimate controlling party, indicating that this support will be forthcoming for not less than 12 months from the date of approval of these financial statements.

The Group and the Company are reliant on the ultimate controlling party for additional financial support and not recalling the existing loans owed by the Group and the Company. While a letter of support has been provided confirming these intentions, it is not legally binding and therefore does not guarantee that such support will be available. This indicates that a material uncertainty exists that may cast significant doubt on the Group's and the Company's ability to continue as going concerns, and therefore the Group and the Company may be unable to realise their assets and discharge their liabilities in the normal course of business.

The Directors have a reasonable expectation that the loans will not be recalled and that the additional funds required from the ultimate controlling party will be forthcoming. As a result, the Directors believe that the Group and the Company will continue as a going concern for a period of at least 12 months from the date of approval of these financial statements and have therefore prepared the financial statements on a going concern basis.

2. Accounting policies (continued)

2.3 Going concern (continued)

The financial statements do not include any adjustments that would result from the basis of preparation being inappropriate.

2.4 Turnover

Turnover is measured at the fair value of the consideration received or receivable and represents amounts receivable in the normal course of business, net of discounts, VAT and other sales-related tax.

Gate receipts, other match day revenue and prize money in respect of cup competitions are recognised as the games are played. Sponsorship and similar commercial income are recognised over the duration of the respective contracts where it is probable that the income will be received. The fixed element of broadcasting revenues is recognised over the duration of the football season, based on matches played, whilst facility fees received for live coverage or highlights are taken when earned. Merit awards in excess of the minimum receivable are accounted for only when known at the end of the football season.

Merchandising revenue is recognised when goods are delivered and title has passed.

2.5 Operating leases: the Company as lessee

Rentals paid under operating leases are charged to the Statement of Comprehensive Income on a straight-line basis over the lease term.

Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight-line basis over the lease term, unless another systematic basis is representative of the time pattern of the lessee's benefit from the use of the leased asset.

2.6 Finance leases: the Company as lessee

Where assets are financed by leasing agreements that give rights approximating to ownership (finance leases), the assets are treated as if they had been purchased outright. The amount capitalised is the present value of the minimum lease payments payable over the term of the lease. The corresponding leasing commitments are shown as amounts payable to the lessor. Depreciation on the relevant assets is charged to profit or loss over the shorter of estimated useful economic life and the term of the lease.

Finance lease payments are analysed between capital and interest components so that the interest element of the payment is charged to profit or loss over the term of the lease and is calculated so that it represents a constant proportion of the balance of capital repayments outstanding. The capital part reduces the amounts payable to the lessor.

2.7 Interest receivable and similar income

Interest income is recognised in the Statement of Comprehensive Income using the effective interest method.

2. Accounting policies (continued)

2.8 Interest payable and similar expenses

Finance costs of borrowings are recognised in the Statement of Comprehensive Income using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the borrowing.

Any non-current assets acquired on deferred terms are recorded at the discounted present value at the date of acquisition. The associated payable is then increased to the settlement value over the period of deferral, with this value being charged as a notional finance cost through the Statement of Comprehensive Income.

2.9 Pensions

Defined contribution pension plan

The Company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. Once the contributions have been paid the Company has no further payment obligations.

The contributions are recognised as an expense in the Statement of Comprehensive Income when they fall due. Amounts not paid are shown in accruals as a liability in the Balance Sheet. The assets of the plan are held separately from the Company in independently administered funds.

2. Accounting policies (continued)

2.10 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are translated using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the Statement of Comprehensive Income within 'finance income or costs'. All other foreign exchange gains and losses are presented in the Statement of Comprehensive Income within 'other operating income'.

2.11 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Balance Sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the Balance Sheet date.

2. Accounting policies (continued)

2.12 Player costs and transactions

(i) Capitalisation
Costs associated with the initial acquisition of or the extension or renegotiation of player registrations are capitalised as intangible fixed assets. Costs associated with the initial acquisition comprise transfer and agents fees and exclude signing on bonuses and loyalty fees which are payable to the players. Any intangible assets acquired on deferred terms are recorded at the fair value at the date of acquisition. The fair value represents the net present value of the costs of acquiring players.

(ii) Amortisation
These capitalised costs are fully amortised on a straight-line basis over their useful economic lives, being the period of the original or extended or renegotiated contract. Where a contract life is extended or renegotiated then any unamortised costs of the original contract together with the new costs relating to the contract extension are amortised over the term of the new contract.

(iii) Contingent consideration
Under the conditions of certain transfer agreements, further fees will be payable to the vendors in the event of the players concerned making a certain number of First Team appearances or on the occurrence of certain other specified future events. Liabilities in respect of these additional transfer related costs not recognised at date of acquisition are accounted for when they become probable, which is typically when they are confirmed, and charged directly to the Statement of Comprehensive Income.

(iv) Impairment
The Company will perform an impairment review on the intangible assets if events or changes in circumstances give cause for a player to be taken out of the football club cash generating unit ("CGU") and that indicate that the carrying amount of the player may not be fully recoverable. The Company compares the carrying amount of the player's registration with its recoverable amount. Impairment losses are recognised in the Statement of Comprehensive Income during the year and are included within administrative expenses in the Statement of Comprehensive Income.

The Company considers the recoverable amounts of individual player registrations, being the higher of their fair value less costs to sell and their value in use. The Company estimates fair value less costs to sell using one of the following sources:

- in the case of a player who has permanently fallen out with the Company's senior football management and Directors, either the agreed selling price in the event that there is an agreement to transfer the player subsequent to the year end; or if there have not been any bids for the player, management's best estimation of the disposal proceeds (less costs) of the player on an arm's length basis. This is determined by the Company's senior football management in conjunction with the Directors who will use the outcome of recent player disposals (by both the Company and other football clubs) as a basis for their estimation. Any costs to sell, such as agency costs are deducted from the fair value; or

- in the case of a player who has suffered a career-threatening injury or condition, the value attributed to the player by the Company's insurers.

2. Accounting policies (continued)

2.12 Player costs and transactions (continued)

(v) Disposals
Profits or losses on the disposal of these player registrations represent the fair value of the consideration receivable, net of any transaction costs, less the unamortised cost of the original registration.

(vi) Remuneration
Remuneration of players is charged in accordance with the terms of the applicable contractual agreements and any discretionary bonus when there is a legal or contractual obligation.

Signing on fees are expensed and spread over life of contract as the club has an enforceable right to retain the services of the player as a result of the player's contract.

Given the contractual commitment – the full liability is recognised up front and with a corresponding prepayment for any element paid and not yet expensed and for any element of the fees that are are not yet paid nor expensed.

Loyalty bonuses are expensed as they fall due over the length of the period in the contract as the club has an enforceable right to retain the services of the player.

Discretionary bonuses, e.g. appearance fees, win/draw bonuses, are provided for, as part of operating expenses, when payment becomes probable or due contractually.

2.13 Tangible assets

Tangible assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses with the exception of the Cardiff City Stadium which is measured at fair value. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. For tangible assets held at fair value see note 2.15.

The Company adds to the carrying amount of an item of assets the cost of replacing part of such an item when that cost is incurred, if the replacement part is expected to provide incremental future benefits to the Company. The carrying amount of the replaced part is derecognised. Repairs and maintenance are charged to the Statement of Comprehensive Income during the period in which they are incurred.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method. Work-in-progress is not depreciated.

Depreciation is provided on the following basis:

Cardiff City Stadium	- 2%
Training ground improvements	- 10%
Motor vehicles	- 25%
Fixtures and equipment	- 10-25%

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the Statement of Comprehensive Income.

2. Accounting policies (continued)

2.14 Revaluation of tangible assets

The Cardiff City Stadium as an individual leasehold property is carried at current year value at depreciated replacement cost at the date of the revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are undertaken with sufficient regularity to ensure the carrying amount does not differ materially from that which would be determined using depreciated replacement cost at the balance sheet date.

Depreciated replacement cost is determined from market based evidence normally undertaken by professionally qualified valuers.

Revaluation gains and losses are recognised in other comprehensive income unless losses exceed the previously recognised gains or reflect a clear consumption of economic benefits, in which case the excess losses are recognised in the Statement of Comprehensive Income.

2.15 Impairment of tangible assets

Assets that are subject to depreciation or amortisation are assessed at each reporting date to determine whether there is any indication that the assets are impaired. Where there is any indication that an asset may be impaired, the carrying value of the asset (or cash-generating unit to which the asset has been allocated) is tested for impairment. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's (or CGU's) fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (CGUs). Non-financial assets that have been previously impaired are reviewed at each reporting date to assess whether there is any indication that the impairment losses recognised in prior periods may no longer exist or may have decreased.

2.16 Stocks

Stocks are stated at the lower of cost and net realisable value, being the estimated selling price less costs to complete and sell. Cost is based on the cost of purchase on a first in, first out basis.

At each reporting date, stocks are assessed for impairment. If stock is impaired, the carrying amount is reduced to its selling price less costs to complete and sell. The impairment loss is recognised immediately in the Statement of Comprehensive Income.

2.17 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment. Football receivables are receivables arising from player transfers.

2.18 Bank and cash balances

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2. Accounting policies (continued)

2.19 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including loans form related undertakings, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method. Football payables are payables arising from player transfers.

2.20 Provisions for liabilities

Provisions are recognised when an event has taken place that gives rise to a legal or constructive obligation, a transfer of economic benefits is probable and a reliable estimate can be made.

Provisions are measured as the best estimate of the amount required to settle the obligation, taking into account the related risks and uncertainties.

Increases in provisions are generally charged as an expense to the Statement of Comprehensive Income.

2.21 Financial instruments

The Company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from related parties and third parties and investments in ordinary shares.

Debt instruments (other than those wholly repayable or receivable within one year), including loans and other accounts receivable and payable, are initially measured at present value of the future cash flows and subsequently at amortised cost using the effective interest method. Debt instruments that are payable or receivable within one year, typically trade debtors and creditors, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration expected to be paid or received. However, if the arrangements of a short-term instrument constitute a financing transaction, like the payment of a trade debt deferred beyond normal business terms or in case of an out-right short-term loan that is not at market rate, the financial asset or liability is measured, initially at the present value of future cash flows discounted at a market rate of interest for a similar debt instrument and subsequently at amortised cost, unless it qualifies as a loan from a director in the case of a small company, or a public benefit entity concessionary loan.

The proceeds received on issue of convertible debt are allocated into their liability and equity components and presented separately in the Balance Sheet. The amount initially attributed to the debt component equals the discounted cash flows using a market rate of interest that would be payable on a similar debt instrument that did not include an option to convert. The difference between the net proceeds of the convertible debt and the amount allocated to the debt component is credited direct to equity and is not subsequently remeasured. On conversion, the debt and equity elements are credited to share capital and share premium as appropriate. Transaction costs that relate to the issue of the instrument are allocated to the liability and equity components of the instrument in proportion to the allocation of proceeds.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the Statement of Comprehensive Income.

2. Accounting policies (continued)

2.21 Financial instruments (continued)

For financial assets measured at amortised cost, the impairment loss is measured as the difference between an asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate. If a financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate of the recoverable amount, which is an approximation of the amount that the Company would receive for the asset if it were to be sold at the reporting date.

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

3. Judgements in applying accounting policies and key sources of estimation uncertainty

In preparing the financial statements, management is required to make estimates and assumptions which affect reported income, expenses, assets, liabilities and disclosure of contingent assets and liabilities. Use of available information and application of judgement are inherent in the formation of estimates, together with past experience and expectations of future events that are believed to be reasonable under the circumstances. Actual results in the future could differ from such estimates.

The Directors consider the following areas to involve considerable degree of estimation uncertainty:

Recoverable amount of non-current assets

All non-current assets, including property, plant and equipment and intangible assets, are reviewed for potential impairment using estimates of the future economic benefits attributable to them. Such estimates involve assumptions in relation to future ticket income, media and sponsorship revenue and on-pitch performance. Intangible assets (ie player registrations) are reviewed for trigger events such as significant injuries. Any estimates of future economic benefits made in relation to non-current assets may differ from the benefits that ultimately arise, and materially affect the recoverable value of the asset.

Other key sources of estimation uncertainty:

The Cardiff City Stadium asset which is included within tangible assets at £82.3m (2024: £84.5m) (see note 15) is valued on a depreciated replacement cost basis. The Directors ensure the assumption used in calculating this value are reviewed by an external expert on a regular basis and consider the carrying value of the stadium at each reporting date.

Withholding tax provision

The Company has received financing from SCP Torman Finance Inc (formerly Tormen Finance Inc) which is registered in Monaco. The Company has identified a potential exposure to withholding taxes related to the interest on the SCP Tormen Finance Inc loans. The Company continues to recognise a provision for the potential withholding tax liabilities.

Judgement - Consideration of contingent asset

The Company is involved in a legal dispute with Nantes regarding the transfer of Emilio Sala. The Company has filed a lawsuit seeking damages amounting to €120 million. The outcome of the court case is uncertain, and the Company is awaiting the court's decision in March 2026.

Management has exercised significant judgement in assessing the likelihood of a favourable outcome. Due to the inherent uncertainties in legal proceedings, the probability, timing and amount of any potential inflow of economic benefits cannot be reliably estimated at this stage. Therefore, in accordance with FRS 102, the Company has not disclosed a contingent asset in the financial statements. The Company will continue to monitor the progress of the legal proceedings and will recognise an asset when the inflow of economic benefits becomes virtually certain.

If the Company is successful in its claim, it could result in a significant inflow of economic benefits, enhancing the Company's financial position. The Company will update its disclosures as more information becomes available.

4. Turnover

An analysis of turnover by class of business is as follows:

	2025 £000	2024 £000
Gate receipts & match day income	**5,947**	6,086
Centralised broadcasting & commercial distributions	**12,945**	10,421
Sponsorship, advertising & other commercial income	**6,863**	6,489
	25,755	22,996

All turnover arose within the United Kingdom.

5. Exceptional items

	2025 £000	2024 £000
Exceptional items	**-**	18,437

In prior year, exceptional items relate to the following:

- Settlement arising from a contractual dispute in a prior year - £5.75m;
- Sale of a share of the proceeds in a litigation case - £12.0m; and
- Release of provision held from previous years - £687k.

6. Other operating income

	2025 £000	2024 £000
Profit on disposal of tangible assets	**3**	3
Car park rental income	**124**	95
Football League grant income	**1**	4
	128	102

7. Operating loss

The operating loss is stated after (crediting)/charging:

	2025 £000	Restated 2024 £000
Operating lease rentals	**613**	856
Amortisation of intangible assets	**4,249**	2,619
Depreciation of tangible assets	**2,761**	2,608
Difference on foreign exchange	**6**	(13)

8. Auditor's remuneration

	2025 £000	2024 £000
Fees payable to the Company's auditor and its associates for the audit of the Company's annual financial statements	**68**	68

The Company has taken advantage of the exemption not to disclose amounts paid for non-audit services as these are disclosed in the Group accounts of the parent company.

9. Employees

Staff costs, including Directors' remuneration, were as follows:

	2025 £000	Restated 2024 £000
Wages and salaries	**34,668**	26,777
Social security costs	**4,126**	2,938
Cost of defined contribution scheme	**160**	146
	38,954	29,861

Included in the above is £29,190,000 (2024: £21,357,000) in respect of player related wages.

The average monthly number of employees, including the Directors, during the year was as follows:

	2025 No.	2024 No.
Players	**58**	49
Other staff	**164**	160
	222	209

10. Directors' remuneration

	2025 £000	2024 £000
Directors' emoluments	**116**	60
Social security costs	**24**	24
Other benefits	**3**	3
	143	87

The highest paid Director received remuneration of £60,000 (2024: £60,000).

The value of the Company's contributions paid to a defined contribution pension scheme in respect of the highest paid Director amounted to £3,000 (2024: £3,000).

11. Interest receivable and similar income

	2025 £000	2024 £000
Bank interest receivable	**104**	149

12. Interest payable and similar expenses

	2025 £000	As restated 2024 £000
Related undertakings interest and associated withholding tax (see note 22)	**6,145**	2,613
Finance lease interest	**43**	-
Interest payable on advanced player proceeds	**216**	-
Unwinding of discount on player creditors	**684**	218
	7,088	2,831

13. Taxation

	2025 £000	Restated 2024 £000
Corporation tax		
Current tax on losses for the year	**-**	-
Total current tax	**-**	-
Deferred tax		
Origination and reversal of timing differences	**(13)**	-
Total deferred tax	**(13)**	-
Tax on loss on ordinary activities	**(13)**	-

13. Taxation (continued)

Factors affecting tax charge for the year

The tax assessed for the year differs from the standard rate of corporation tax in the UK of 25% (2024 - 25%). The differences are explained below:

	2025 £000	Restated 2024 £000
Loss on ordinary activities before tax	**(34,477)**	(11,558)
Loss on ordinary activities multiplied by standard rate of corporation tax in the UK of 25% (2024: 25%)	**(8,619)**	(2,890)
Effects of:		
Expenses not deductible for tax purposes	**693**	165
Fixed asset differences	**619**	598
Other permanent differences	**43**	53
Adjustments to losses	**147**	-
Deferred tax not recognised	**7,117**	2,143
Capital losses	**(13)**	-
Temporary timing differences	**-**	(69)
Total tax charge for the year	**(13)**	-

A deferred tax liability of £3.2m (2024: £3.2m) has been recognised in respect of the potential chargeable gain based on the revaluation of the stadium (see note 21). The assets and liabilities are not offset as the Company does not intend to realise the asset and settle the liability at the same time.

A further potential deferred tax asset exists at the reporting date in respect of additional tax losses carried forward. The potential deferred tax asset offsets a deferred tax liability in respect of fixed asset timing differences (other than the chargeable gain). This has not been recognised in the financial statements as there is insufficient evidence that the overall asset will be recoverable. Tax losses carried forward at the reporting date were £246m (2024: £223m). No deferred tax asset has been recognised in respect of these losses.

There were no factors that may affect future tax charges.

14. Intangible assets

	Player registrations £000
Cost	
At 1 June 2024 (restated)	**7,963**
Additions	**12,497**
Disposals	**(5,040)**
At 31 May 2025	**15,420**
Amortisation	
At 1 June 2024 (restated)	**3,306**
Charge for the year	**4,249**
On disposals	**(3,941)**
At 31 May 2025	**3,614**
Net book value	
At 31 May 2025	**11,806**
At 31 May 2024 (restated)	4,657

Amortisation of £4,249,000 (2024: as restated £2,539,000) has been charged and included as part of administration expenses in the Statement of Comprehensive Income.

The proceeds from disposal of £5,428,000 (as per the cash flow) and the change in Football receivables and prepayments related to disposals in the year of £1,767,000 less the net book value of players disposed of £1,099,000 (above) is the profit on disposal of £6,096,000.

The average remaining amortisation period per player contract as at 31 May 2025 is 26 months (2024: 23 months).

At 31 May 2024	84,524	575	1	1,134	676	86,910

Cardiff City Stadium land is held on a 150-year lease from Cardiff City Council which commenced in September 2009. Cardiff City Council provided a capital contribution towards the cost of the new stadium project which was repaid during the year ended 31 May 2024.

As at 31 May 2023 the Company sought professional advice from Savills (UK) Limited (RICS registered valuers) as to the valuation of the stadium at that date on a depreciated replacement cost basis.

Management have not identified any indicators of impairment, and consider that there are no judgements to be made regarding replacement costs.

The carrying amount of assets held under finance leases included in fixtures and equipment is £371,000.

15. Tangible assets (continued)

If the land and buildings had not been included at valuation they would have been included under the historical cost convention as follows:

	2025 £000	2024 £000
Cost	**44,125**	43,982
Accumulated depreciation	**(14,874)**	(13,700)
Net book value	**29,251**	30,282

16. Stocks

	2025 £000	2024 £000
Stocks	**157**	132

17. Debtors

	2025 £000	2024 £000

Amounts owed to group undertakings are interest free and repayable on demand.

Loans from shareholders and connected parties

	Majority shareholder £000	Connected to majority shareholder £000	Total £000
At 1 June 2024	**67,976**	**7,729**	**75,705**
Received in the year	**-**	**23,600**	**23,600**
Repaid in the year	**(55)**	**-**	**(55)**
Settlement of transaction	**-**	**(5,250)**	**(5,250)**
Reassigned in the year	**21,350**	**(21,350)**	**-**
Transfer from other connected parties	**-**	**3,000**	**3,000**
At 31 May 2025	**89,271**	**7,729**	**97,000**

18. Creditors: amounts falling due within one year (continued)

The loan from the majority shareholder is comprised as follows:

	2025 £000	2024 £000
Interest bearing with conversion rights	**47,424**	47,479
Non-interest bearing without conversion rights	**41,847**	20,497
	89,271	67,976

The key terms of the interest-bearing loan with conversion rights are:

- interest accrues at an annual rate of 7%.
- the loans are secured by way of a charge over the assets and undertaking of the principal trading company of the Company.
- the lender has the right to convert such loans, including accrued interest, into equity at any time, at a fixed conversion price of 15.69 pence per share.

The key terms of the non-interest-bearing loan without conversion rights are:

- the loans are secured by way of a charge over the assets and undertaking of the principal trading company within the Company.

Loans from other connected parties

	Connected parties £000	Total £000
At 31 May 2025	**37,300**	**37,300**

Included in other connected party loans are:

- a loan of £37,300,000 (2024 - £37,300,000) from SCP Tormen Finance Inc (formerly Tormen Finance Inc), a company in which a director of the Company has significant influence over, which bear interest between 6% - 12% per annum.
- In the prior year, Loans from other connected parties included a loan of £3,000,000 from U-Peng Tan, the son of the ultimate controlling party, which has the same terms and conditions as the shareholder loans described above.

18. Creditors: amounts falling due within one year (continued)

Other loans

	2025 £000	2024 £000
Deferred player proceeds (due within one year)	-	750

Amounts due as deferred player proceeds are secured on the equivalent deferred player proceeds included within football receivables in note 17. Amounts secured on future revenue streams paid directly from the third party (EPL) to the counterparty are non-cash items for the purposes of the Statement of Cash Flows.

19. Creditors: amounts falling due after more than one year

	2025 £000	2024 £000
Football payables	**1,653**	678
Accruals and deferred income	**1,162**	153
	2,815	831

20. Financial instruments

	2025 £000	As restated 2024 £000
Financial assets		
Financial assets measured at amortised cost	**6,023**	14,376
Financial liabilities		
Financial liabilities measured at amortised cost	**(315,181)**	(285,191)

Financial assets measured at amortised cost comprise cash at bank and in hand, trade debtors, football receivables, amounts owed by group undertakings, other debtors and accrued income.

Financial liabilities measured at amortised cost comprise loans, trade creditors, football payables, amounts owed to group undertakings, other creditors and accruals.

21. Deferred taxation liability

	2025 £000
At beginning of year	(3,169)
Credit to profit and loss	13
At end of year	(3,156)

The provision for deferred taxation is made up as follows:

	2025 £000	2024 £000
Revaluation of property	(3,156)	(3,169)

The Company has a provision relating to deferred tax totalling a net liability figure of £3.2m (2024: £3.2m).

There is a deferred tax liability of £7.6m (2024: £7.6m) which relates to the revaluation of the stadium. This is offset by a deferred tax asset of £4.4m which has been recognised in relation to carried forward trading losses available for utilisation against the above deferred tax liability.

A remaining deferred tax asset of £61.2m in relation to trading losses has not been recognised as these are not available for utilisation against the above stadium revaluation and have not otherwise been recognised due to the ongoing uncertainty over future taxable profits of the company and the group.

22. Provisions

	Withholding tax £000
At 1 June 2024 - as restated	2,686
Charged in year	1,670
At 31 May 2025	4,356

The Company has received financing from SCP Torman Finance Inc (formerly Tormen Finance Inc) which is registered in Monaco. The Company has identified a potential exposure to withholding taxes related to the interest on the SCP Tormen Finance Inc loans. The Company continues to recognise a provision for the potential withholding tax liabilities.

The Company expects to resolve the tax exposure within the next 12 months, and any adjustments to the provision will be reflected in future financial statements.

23. Share capital

	2025 £000	2024 £000
Allotted, called up and fully paid		
4,032,008 Ordinary shares of £0.50 each	**2,016**	2,016

24. Reserves

Share premium account

This reserve records the excess paid on shares issued.

Revaluation reserve

This reserve records the historical revaluations net of related deferred tax.

Profit and loss account

This reserve records retained earnings and accumulated losses.

25. Prior year adjustments (continued)

Adjustment A - Payment to players under Contract (Signing on fees and loyalty bonuses)
In prior years certain costs identified which were payable to the players under contract rather that to other clubs on acquisition of the player registration such as Signing on fees, Loyalty fees and contingent fees had been capitalised in error as intangible asset. These costs should have been expensed to the profit and loss account as incurred over the length of the players' contracts.

For signing on fees, given the contractual commitment, a full liability has been accrued in each period presented and if any element of fees are not yet paid, a corresponding prepayment has been recognised. This adjustment has also resulted in some of these costs being classified in the profit and loss as salary costs.

Adjustment B - Player Registrations Contract extensions
Player registration contract extensions have been treated as a disposal of the original contract rather than as an amendment to an existing contract. The treatment of these contracts has been corrected in intangible assets so that when a contract is extended or renegotiated then any unamortised costs of the original contract together with the new costs relating to the contract extension are amortised over the term of the new contract.

Adjustment C - Presentation of the withholding tax provision
The amount being provided in respect of the potential exposure to withholding tax was previously presented in accruals and should have been presented as a provision. An adjustment has been made to reclassify this balance from accruals to provision in each period presented.

Adjustment D - Presentation of the statement of comprehensive income

Operating loss should represent activities regarded as "operating". Given that player trading is part of the normal trading activities of the football club, it is appropriate to present these profits and losses above operating profit and so this has been reclassified in both periods presented.

Conversely, the prior year exceptional gains on the Emiliano Sala case (£12m) and the settlement arising from a contractual dispute (£5m) are not operating activities and have been disclosed below operating profit and the prior year statement of comprehensive income has been restated in both periods presented.

Adjustment E - Impairment of intercompany receivable – Cardiff City Football club only

The intercompany receivable in Cardiff City Football club with Cardiff City Premier Seating Limited of £3,379,000 has been impaired as this was due from a subsidiary with net liabilities.

Adjustment F - Net off of intercompany balances
In 2024, intercompany balances with legal right to set-off were netted down against each other.

26. Contingent liabilities

The Company has commitments under player registration transfer contracts with other football clubs to pay up to £9,466,000 (2024: £3,630,000) which are conditional upon one or more future events. Given that such future events are not yet considered probable, no provision has been made for these amounts in these financial statements.

27. Pension commitments

The Company operates a defined contributions pension scheme. The assets of the scheme are held separately from those of the Company in an independently administered fund. The pension cost charge represents contributions payable by the Company to the fund and amounted to £160,000 (2024: £146,049). Contributions totalling £45,000 (2024: £36,000) were payable to the fund at the reporting date and are included in creditors.

28. Commitments under operating leases

At 31 May 2025 the Company had future minimum lease payments due under non-cancellable operating leases for each of the following periods:

	2025 £000	2024 £000
Not later than 1 year	**745**	743
Later than 1 year and not later than 5 years	**2,045**	1,642
Later than 5 years	**16,601**	17,511
	19,391	19,896

29. Related party transactions

The Company has taken exemption under FRS 102 section 33.1A from disclosing transactions with Company companies, on the grounds that each company party to the transactions is wholly owned within the Group.

Transactions with related parties

During the year the Company traded with the following companies which have one or more directors in common:

CMB Group of Companies - net purchases of £112,630 (2024: £100,897) in respect of engineering and maintenance services, year end creditor £25,108 (2024: £544).

Cardiff City House of Sport Limited - net purchases of £789,581 (2024: £417,466) in respect of the hire of facilities, year end creditor £122,336 (2024: £3,800).

HR Owen plc - net purchases of £106,265 (2024: £100,543) in respect of sales of match tickets and advertising and purchases of insurance brokerage services provided during the year, year end debtor £7,285 (2024: £77).

Cardiff City FC Foundation - net purchases of £142,775 (2024: £100,570) in respect of charitable activity, year end creditor of £29,965 (2024: debtor of £69,728).

CVBA Kortrijk Voetbalt - net sales of £5,980 (2024: £202,905) in respect of player services during the year, year end debtor £5,980 (2024: £100,842).

Other related party transactions

During the year the Company traded with WMG Funds Limited, a company over which a director of Cardiff City Football Club Limited has significant influence - net purchases of £263,000 (2024: £27,000) in respect of professional services rendered.

During the year the Company traded with and borrowed from entities over which a director of Cardiff City Football Club Limited has significant influence:

SCP Tormen Finance Inc (formerly Tormen Finance Inc) – charged interest amounting to £4,476,000 (2024: £2,104,734) on loans detailed in note 18. Interest paid during the year was paid to SCP Tormen Finance Inc and other related parties on behalf of SCP Tormen Finance Inc.

30. Key management personnel

In addition to the remuneration detailed in note 10, a further £263,163 (2024: £1,149,715) was paid to other key management personnel in respect of short term employee benefits.

31. Post balance sheet events

Subsequent to the year end and prior to signing of these financial statements, the Company has acquired player registrations totalling £1,490,147 of which £Nil is contingent upon one or more future events. These have been funded by the sale of player registrations and additional loans received.

Subsequent to the year end and prior to signing of these financial statements, the Company has sold player registrations with net proceeds totalling £1,458,852.

Subsequent to the year end and prior to signing of these financial statements, the Company has received funding of £2,250,000 in loans from unsecured borrowings. Loans totalling £4,900,000 have been repaid.

Additionally amounts totalling £19,150,000 have been received. This funding is non-interest bearing with no requirement to pay.

The Company is involved in a legal dispute with Nantes regarding the transfer of Emiliano Sala. The Company has filed a lawsuit seeking damages amounting to €120 million. Given that, in the prior year, the Group sold a share of the proceeds in the case, even if the club were to be successful, the full €120m would not be paid to the club due to the terms of this previous arrangement. The outcome of the court case is uncertain, and the Company is awaiting the court's decision in March 2026.

32. Controlling party

The immediate and ultimate parent company throughout the current and previous year is considered to be Cardiff City Football Club (Holdings) Limited due to its majority shareholding in the Company. The ultimate controlling party is considered to be Tan Sri Dato' Seri Vincent Tan Chee Yioun due to his majority shareholding in Cardiff City Football Club (Holdings) Limited, whose registered address is Cardiff City Stadium, Leckwith Road, Cardiff, CF11 8AZ.

The smallest and largest group which includes the Company for which consolidated company accounts are prepared is Cardiff City Football Club (Holdings) Limited.
