LUTON TOWN FOOTBALL CLUB 2020 LTD

STRATEGIC REPORT

FOR THE YEAR ENDED 30 JUNE 2023

The directors present the strategic report for the year ended 30 June 2023.

Fair review of the business

2022/23 proved to be a historic season for the club culminating as it did, with promotion back to the top tier of English football for the first time since 1991/92. A unique journey from the top of the pyramid to the relative depths of non-league football and back again, would be concluded in typically dramatic fashion. After a 1-1 draw over ninety minutes, a disallowed winner in extra time and a penalty shootout that went to sudden death, Luton Town finally overcame Coventry City in the play-off final at Wembley, securing Premier League football for the first time in the club's history in the process.

With the firm intention of improving on the previous season's performance, which ended in defeat in the play-off semi-finals, the club once again set about strengthening the squad over the summer with a mix of youth and experience. The first arrivals were Alfie Doughty from Stoke City, Cauley Woodrow from Barnsley and Matt Macey from Hibernian, all before the end of June 2022. These were followed in July by Louie Watson from Derby County, John McAtee from Grimsby Town, Aribim Pepple from Cavalry FC, Luke Freeman from Sheffield United and both Jack Walton and Carlton Morris from Barnsley. Joe Taylor was signed from Peterborough United during the January 2023 transfer window to further bolster the team's attacking options, with the club well placed for another play-off push.

The team made a surprisingly slow start to the season with two draws and two defeats in the first four league games and were also knocked out of the EFL Cup in the first round by Newport County. By October, though, they had risen to a solid mid-table position. The following month would see a major change at the top of the first team staff, as Nathan Jones departed for Southampton, accompanied by his assistant coaches Chris Cohen and Alan Sheehan. The club reacted decisively in appointing Rob Edwards as the new First Team Manager, with Paul Trollope and Richie Kyle assisting him as First Team Coaches.

January and early February saw a couple of disappointing results as the team lost 3-2 at home to West Bromwich Albion, having led 2-0 and were then knocked out of the FA cup in the fourth round, after a replay away at Grimsby Town. A good run of results in the league was brought to an end in mid-February, as Burnley edged a tight game 1-0 at Kenilworth Road, but that would be the last time Luton tasted defeat before the play-offs. Eight wins and 6 draws would see the club climb from 6th to 3rd in the table and qualify for the play-offs for the second season running, with something to spare.

As the higher placed team, Luton travelled to Sunderland for the first leg of the semi-final where an incredible atmosphere failed to intimidate the players as Elijah Adebayo quietened the home crowd with an early goal. The home team came roaring back late in the first half to equalise with a glorious free kick from Amad Diallo before taking the lead half way through the second half and holding on for a 2-1 win. The return leg at Kenilworth saw a similarly partisan crowd lift the Luton players to one of their best performances of the season, as they dominated a young Sunderland side. First half goals from Gabriel Osho and Tom Lockyer secured a comfortable 2-0 win (3-2 aggregate) and a place in the play-off final.

Wembley was a sell-out for the play-off final between Luton Town and Coventry City and the two evenly matched teams played out a tense 1-1 draw, with Jordan Clark's first half goal for Luton, cancelled out by Gustavo Hamer's equaliser in the second. A sudden death penalty shootout, during which no Luton player missed, would decide the result in Luton's favour and secure promotion to the Premier League for this first time.

Major upgrades were required to the club's historic home, Kenilworth Road stadium, to get it up to the required standard to host Premier League football in the 2023/24 season and the 2020 Developments team started work on this immediately. Changes to the first team squad would also be required to be competitive at the higher level and Mads Andersen arrival from Barnsley in June marked the beginning of an influx of talent over the summer.

At the time of presenting these financial statements, the first team is occupying 18th place in the Premier League table. The sizeable uplift in broadcast revenue as a result of promotion has allowed the club to invest heavily in its long term strategic plan, with stadium and training ground infrastructure, as well as the first team squad, all receiving significant levels of funding.

Financial Overview

With the team qualifying for the play-offs for the second consecutive season matchday and broadcasting revenues (league distribution) remained at similar levels (£15.2m in 2023 compared to £15.3m in 2022). The play-off final did drive a significant uplift in retail and sponsorship revenue however, which largely accounted for the overall increase of £0.8m.The increase in player trading and other related income relates to compensation from Southampton, following the departure of Nathan Jones and his coaching staff in November 2022.

The significant increases in cost of sales and administrative expenses were principally due to promotion related costs, including bonuses and contingent fees, so whilst the operating loss appears significantly worse than the prior year, the related upside will be reported in the 2023/24 accounts when Premier League revenues are realised.

The club maintained its strategy of building a squad capable of promotion, so both player acquisition and player wage costs increased progressively from the prior year. The acquisition of Mads Andersen prior to the year end, also contributed to the increase in the value of intangible assets. The high wages to turnover ratio is an anomaly caused by the recognition of promotion bonuses in the 2022/23 accounts. Creditors falling due within one year increased by £20m as a result of accrued promotion related costs as noted above and intercompany funding from 2020 Developments.

A summary of provided below:

	2023 £'000	2022 £'000
Turnover	18,427	17,658
Operating Costs	(39,450)	(25,136)
Other Operating income	14	23
Operating loss before player trading	(21,009)	(7,455)
Player trading	4,716	1,075
Operating loss	(16,294)	(6,380)

Key performance indicators

The company considers there to be a number of financial and non-financial key performance indicators ("KPI's") which are used in assessing the success of the company:

	2023	2022
Turnover (£'000)	18,427	17,658
Operating loss before player trading (£'000)	(21,009)	(7,455)
EBITDA (£'000)	(13,674)	(4,468)
All-staff wages to turnover ratio (%)	150%	101%
Net book value of intangible assets (£'000)	7,886	3,532
Average football league attendance	9,856	9,857
Academy players registered in first team squad	19	9

Principal risks and uncertainties

Having gained promotion to the Premier League at the end of the 2022/23 season, and with parachute payments in place for relegated clubs for the foreseeable future, the club has secured significantly increased revenues for at least the next three seasons and can now move forward on a firmly sustainable footing. That said, this is a potentially momentous time with the "New Deal for Football" and the introduction of an independent regulator representing significant uncertainty for all those involved in the game. The club remains actively engaged in on-going discussions on these matters.

Financial risk management objectives and policies

League status risk

Due to the current distribution model of the football league, a principal risk for the football club is the performance of the first team in relation to league status. The group manages the impact of this through control of player wages (relegation clauses) and situational planning dependent upon league status.

Credit risk

Financial instruments that potentially subject the club to credit risk consist primarily of cash equivalents and accounts receivable. These instruments contain a risk of counterparties failing to discharge their obligations. The club monitors credit risk and manages credit risk exposure by assessing the creditworthiness of counterparties. Due to the diversity of the debtor portfolio, the club does not assess this to pose a significant risk to the club at present.

Liquidity risk

Our liquidity needs are affected by our performance on the pitch which impacts revenues and wage costs. Budgets and cash flows are prepared annually and forecasts are updated on a monthly basis so funding requirements are planned and approved well in advance. Following the recent promotion, the Board assesses this risk as low.

Operational risk

The club operates a cashless stadium and has introduced access control systems for staff and fans. This has greatly reduced operational risk associated with cash payments and unauthorised entry.

Future developments

The club's long-term plan to consolidate towards the top of the football pyramid remains on course, particularly following the recent promotion to the Premier League and the financial rewards that brings.

The club will continue to invest in a strong playing squad, as well as vital infrastructure, including the training ground and new stadium at Power Court. The long held ambition of upgrading the Academy to Elite Player Performance Plan (EPPP2) will also be progressed in the coming year.

Whilst further progression on the pitch may prove challenging in the 2023/24 season, the club will remain attentive to the long-term as it continues to build for the future.

On behalf of the board

LUTON TOWN FOOTBALL CLUB 2020 LTD

DIRECTORS' REPORT

FOR THE YEAR ENDED 30 JUNE 2023

The directors present their annual report and financial statements for the year ended 30 June 2023.

Principal activities
The principal activity of the company continues to be that of a professional football club.

Directors
The directors who held office during the year and up to the date of signature of the financial statements were as follows:

G Sweet
D Wilkinson
P Ballantyne
M Herrick
R Curson
S Browne
R Stringer
T Schofield

Results and dividends
The results for the year are set out on page 10.

No ordinary dividends were paid. The directors do not recommend payment of a final dividend.

Qualifying third party indemnity provisions
The company has made qualifying third party indemnity provisions for the benefit of its directors during the year. These provisions remain in force at the reporting date.

Research and development
A crucial aspect of the group's operations includes a specialist sports science and sports medicine team. Having decades of technical experience in the field among its highly qualified sports science and sports medicine workforce, the group researches and develops an extensive range of state of the art and innovative solutions towards injury rehabilitation, physiological performance and injury prevention. The technical team have undergone continuous training and development in order to embed new innovation within their practices. This has facilitated the prognosis and successful treatment in highly complex and high profile cases.

Disabled persons
Applications for employment by disabled persons are always fully considered, bearing in mind the aptitudes of the applicant concerned. In the event of members of staff becoming disabled, every effort is made to ensure that their employment within the group continues and that the appropriate training is arranged. It is the policy of the group that the training, career development and promotion of disabled persons should, as far as possible, be identical to that of other employees.

Employee engagement
The company holds weekly management meetings, either in person or virtually, attended by departmental managers in order to ensure that information can then be disseminated downwards to each department and employee.

The company actively encourages employees in any efforts to further their development via flexible working hours and the funding of external training where applicable.

In 2014 Luton Town Football Club became the first English professional football club to become a fully accredited Living Wage employer, paying the 'Real Living Wage'. The commitment to pay all employees a 'Real Living Wage' has been maintained throughout the period.

Administrative employees are provided the required office equipment in order to ensure that working from home is a realistic and safe option.

The company offers a range of support to promote the health and mental wellbeing of staff. The Employee Assistance Programme (EAP), which is confidential and managed independently by Health Assured, is available to all staff and immediate family members. Annual health assessments are also undertaken for key workers and senior executives.

The company continues to be an equal opportunities employer which is designed to ensure that all applicants and employees receive the same treatment. Through the implementation of these principles, the company has a staff that reflects the diversity of the town and wider region.

Upwards feedback from employees to managers is encouraged to drive improvement and employee engagement. Employees are frequently involved in decision making through discussions with their managers.

Auditor

RSM UK Audit LLP have indicated their willingness to be reappointed for another term and appropriate arrangements have been put in place for them to be deemed reappointed as auditors in the absence of an Annual General Meeting.

Strategic report

The company has chosen in accordance with Companies Act 2006, s. 414C(11) to set out in the company's strategic report information required by Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008, Sch. 7 to be contained in the directors' report. It has done so in respect of financial risk management objectives and policies and future developments.

Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the company's auditor is unaware. Additionally, each director has taken all the necessary steps that they ought to have taken as a director in order to make themselves aware of all relevant audit information and to establish that the company's auditor is aware of that information.

On behalf of the board

.....

D Wilkinson
Director

LUTON TOWN FOOTBALL CLUB 2020 LTD

DIRECTORS' RESPONSIBILITIES STATEMENT

FOR THE YEAR ENDED 30 JUNE 2023

The directors are responsible for preparing the Strategic Report and the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial period. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the company website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LUTON TOWN FOOTBALL CLUB 2020 LTD

Opinion

We have audited the financial statements of Luton Town Football Club 2020 Ltd (the 'company') for the year ended 30 June 2023 which comprise the statement of comprehensive income, the statement of financial position, the statement of changes in equity and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 30 June 2023 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 6, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

The extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities are instances of non-compliance with laws and regulations. The objectives of our audit are to obtain sufficient appropriate audit evidence regarding compliance with laws and regulations that have a direct effect on the determination of material amounts and disclosures in the financial statements, to perform audit procedures to help identify instances of non-compliance with other laws and regulations that may have a material effect on the financial statements, and to respond appropriately to identified or suspected non-compliance with laws and regulations identified during the audit.

In relation to fraud, the objectives of our audit are to identify and assess the risk of material misstatement of the financial statements due to fraud, to obtain sufficient appropriate audit evidence regarding the assessed risks of material misstatement due to fraud through designing and implementing appropriate responses and to respond appropriately to fraud or suspected fraud identified during the audit.

However, it is the primary responsibility of management, with the oversight of those charged with governance, to ensure that the entity's operations are conducted in accordance with the provisions of laws and regulations and for the prevention and detection of fraud.

In identifying and assessing risks of material misstatement in respect of irregularities, including fraud, the audit engagement team:

- obtained an understanding of the nature of the industry and sector, including the legal and regulatory framework that the company operates in and how the company is complying with the legal and regulatory framework;
- inquired of management, and those charged with governance, about their own identification and assessment of the risks of irregularities, including any known actual, suspected or alleged instances of fraud;
- discussed matters about non-compliance with laws and regulations and how fraud might occur including assessment of how and where the financial statements may be susceptible to fraud.

As a result of these procedures we consider the most significant laws and regulations that have a direct impact on the financial statements are FRS 102, the Companies Act 2006, and tax compliance regulations. We performed audit procedures to detect non-compliances which may have a material impact on the financial statements which included reviewing financial statement disclosures and evaluating tax calculations.

The most significant laws and regulations that have an indirect impact on the financial statements are those in relation to English Football League (EFL) and English Premier League (EPL) regulations. We performed audit procedures to inquire of management whether the company is in compliance with these laws and regulations and inspected correspondence with the EFL and EPL.

The audit engagement team identified the risk of management override of controls as the area where the financial statements were most susceptible to material misstatement due to fraud. Audit procedures performed included but were not limited to testing manual journal entries and other adjustments and evaluating the business rationale in relation to significant, unusual transactions and transactions entered into outside the normal course of business.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: https://www.frc.org.uk/auditorsresponsibilities This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

1 Accounting policies

Company information

Luton Town Football Club 2020 Ltd is a private company limited by shares and is registered and incorporated in England and Wales. The registered office is Kenilworth Stadium, 1 Maple Road East, Luton, Bedfordshire, LU4 8AW.

The company's principal activities and nature of its operations are disclosed in the Strategic and Directors' Reports.

Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006, including the provisions of the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £1.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

This company is a qualifying entity for the purposes of FRS 102, being a member of a group where the parent of that group prepares publicly available consolidated financial statements, including this company, which are intended to give a true and fair view of the assets, liabilities, financial position and profit or loss of the group. The company has therefore taken advantage of exemptions from the following disclosure requirements:

- Section 7 'Statement of Cash Flows' – Presentation of a statement of cash flows and related notes and disclosures;
- Section 11 'Basic Financial Instruments' – Interest income/expense and net gains/losses for each category of financial instrument;
- Section 33 'Related Party Disclosures' – Compensation for key management personnel.

The financial statements of the company are consolidated in the financial statements of 2020 Holdings (England) Limited. These consolidated financial statements are available from its registered office, Kenilworth Stadium, 1 Maple Road East, Luton, Bedfordshire, LU4 8AW.

Going Concern

The 2022/23 season saw the club promoted to the Premier League for the first time in its history. Promotion related costs including bonuses, contingent loan and transfer fees have been recognised in this year's accounts, whilst the upside, including vastly increased broadcasting revenue will be received and recognised in 2023/24.

The directors have produced detailed financial forecasts to the end of the 2024/25 season under a number of scenarios and are confident that regardless of the outcome of the club's first Premier League season, the increased revenue will provide sufficient working capital to meet the Club's needs during the forecast period. As such, the directors have concluded that it is appropriate to continue to adopt the going concern basis in preparing these financial statements.

The financial statements do not include any adjustments that would result if the company is unable to continue as a going concern.

1 **Accounting policies (Continued)**

Turnover
Turnover includes all revenue from football and related commercial activities exclusive of VAT.

Gate receipts and other match day revenues are recognised as the games are played.

Revenue from season ticket sales is credited to income over the period to which it relates.

Sponsorship, advertising and other similar commercial income is recognised over the duration of the contracts to which it relates.

Player trading income
Player trading income is recognised on completion of contracts. Contingent trading income is recognised when the contractual milestones are achieved. The profit arising on player trading activity, being transfer income less associated fees paid and football league levies, is reported separately in the statement of comprehensive income after gross profit.

Other operating income
Donations are recognised upon receipt.

Government grants are recognised at the fair value of the asset received or receivable when there is reasonable assurance that the grant conditions will be met and the grants will be received. A grant that specifies performance conditions is recognised in income when the performance conditions are met. Where a grant does not specify performance conditions it is recognised in income when the proceeds are received or receivable. A grant received before the recognition criteria are satisfied is recognised as a liability.

Intangible assets - player registrations
When acquired, the costs of obtaining players' registrations are capitalised and amortised evenly over the period of the associated player's contract. The amortisation period therefore varies by player depending on their contract. Provision is made where, in the opinion of directors, an impairment of the carrying value of the players' registrations has occurred. Potential future registration fees, contingent on certain conditions agreed in the registration contracts with the selling company, are disclosed as contingent liabilities (see note 25).

Profits or losses on the disposal of these registrations represents the fair value of the consideration receivable, net of any transaction costs, less the unamortised cost of the original registration.

Tangible fixed assets
Tangible fixed assets are initially measured at cost and subsequently measured at cost, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives on the following bases:

Fixtures, fittings and equipment	20% straight line
Motor vehicles	20% straight line

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

Stocks
Finished goods are valued at the lower of cost and net realisable value.

1 **Accounting policies (Continued)**

Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' of FRS 102 to all of its financial instruments.

Financial instruments are recognised when the company becomes party to the contractual provisions of the instrument.

Basic financial assets

Basic financial assets, which include accrued income, trade and other debtors are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost, being transaction price less any amounts settled and impairment losses.

Impairment of financial assets

Financial assets are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the company transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

Basic financial liabilities

Basic financial liabilities, including trade and other creditors, amounts owed to group undertakings and accruals payable within one year that do not constitute a financing transaction are initially measured at the transaction price and subsequently measured at amortised cost, being transaction price less any amounts settled.

Where the arrangement with a creditor constitutes a financing transaction, the creditor is initially measured at the present value of future payments discounted at a market rate of interest for a similar instrument and subsequently measured at amortised cost, being transaction price less any amounts settled and the cumulative amortisation (using the effective interest method) of any difference between the amount at initial recognition and the maturity amount.

Derecognition of financial liabilities

Financial liabilities are derecognised when, and only when, the company's contractual obligations are discharged, cancelled, or they expire.

Equity instruments

Equity instruments issued by the company are recorded at the fair value of proceeds received, net of transaction costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

1 **Accounting policies (Continued)**

Taxation

The tax expense represents the sum of the current tax expense and deferred tax expense. Current tax assets are recognised when tax paid exceeds the tax payable.

Current tax is based on taxable profit for the period. Current tax assets and liabilities are measured using tax rates that have been enacted or substantively enacted by the reporting date.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled based on tax rates that have been enacted or substantively enacted by the reporting date.

Deferred tax liabilities are recognised in respect of all timing differences that exist at the reporting date. Timing differences are differences between taxable profits and total comprehensive income that arise from the inclusion of income and expenses in tax assessments in different periods from their recognition in the financial statements. Deferred tax assets are recognised only to the extent that it is probable that they will be recovered by the reversal of deferred tax liabilities or other future taxable profits.

Current tax assets and current tax liabilities and deferred tax assets and deferred tax liabilities are offset, if and only if, there is a legally enforceable right to set off the amounts and the entity intends either to settle on the net basis or to realise the asset and settle the liability simultaneously.

Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Retirement benefits

The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the profit or loss in the year they are payable.

The company contributes to the Football League Limited Pension and Life Assurance Scheme for certain former employees, the assets of which are held separately from those of the company in independently administered funds. The company is not able to identify its share of the assets and liabilities of the scheme but makes provision for the expected future cost of funding its obligations to fund benefits accrued at the reporting date, as advised by the Trustees (see note 21).

Share-based payments

Equity-settled share-based payments are measured at fair value at the date of grant by reference to the fair value of the equity instruments granted. The fair value determined at the grant date is expensed on a straight-line basis over the vesting period, based on the estimate of shares that will eventually vest. A corresponding adjustment is made to equity.

When the terms and conditions of equity-settled share-based payments at the time they were granted are subsequently modified, the fair value of the share-based payment under the original terms and conditions and under the modified terms and conditions are both determined at the date of the modification. Any excess of the modified fair value over the original fair value is recognised over the remaining vesting period in addition to the grant date fair value of the original share-based payment. The share-based payment expense is not adjusted if the modified fair value is less than the original fair value.

Cancellations or settlements (including those resulting from employee redundancies) are treated as an acceleration of vesting and the amount that would have been recognised over the remaining vesting period is recognised immediately.

1 **Accounting policies (Continued)**

Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessees. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets at the lower of the assets fair value at the date of inception and the present value of the minimum lease payments. The related liability is included in the statement of financial position as a finance lease obligation. Lease payments are treated as consisting of capital and interest elements. The interest is charged to profit or loss so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Research and development expenditure

Research and development expenditure is written off against profits in the period in which it is incurred.

2 **Judgements and key sources of estimation uncertainty**

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

Critical judgements

The following judgements (apart from those involving estimates) have had the most significant effect on amounts recognised in the financial statements.

Deferred tax asset

During the year, the Club secured promotion to the Premier League via the play off competition. The promotion is expected to result in significant increases to both matchday and central distribution turnover and overall activity within the Club. As a result, the company now expects to utilise all available tax losses in future periods, and has recognised a deferred tax asset on the full amount of tax losses carried forward at the balance sheet date. As promotion was not considered probable as at the balance sheet date in the prior year, no deferred tax asset in respect of losses was recognised in the prior year. Refer to notes 10 and 20 for further detail.

Key sources of estimation uncertainty

The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are as follows.

Present value of pension obligation

The funding objective of the Trustees of the Scheme is to have sufficient assets to meet the Technical Provisions of the Scheme. In order to remove the deficit revealed at the previous actuarial valuation (dated 31 August 2020), deficit contributions are payable by all participating clubs. Payments are made in accordance with a payment schedule. Determining the present value of the clubs share of the pension obligations requires significant assumptions determined by the schemes actuaries and therefore represents a key source of uncertainty (see note 21).

3 Turnover and other revenue

An analysis of the company's turnover is as follows:

	2023	2022
	£	£
Turnover analysed by class of business		
Matchday	5,065,826	4,879,966
League distributions	10,123,485	10,460,618
Commercial	3,237,350	2,317,892
	18,426,661	17,658,476

	2023	2022
	£	£
Turnover analysed by geographical market		
United Kingdom	18,426,661	17,658,476

	2023	2022
	£	£
Other operating income		
Grants received	-	10,020
Other income	13,852	12,965
	13,852	22,985

During the year, the company received government grants of £nil (2022: £10,020) under the UK Government Job Retention Scheme.

Included in other income is £13,852 (2022: £12,965) in respect of donations received.

4 Employees

The average monthly number of persons (including directors) employed by the company during the year was:

	2023	2022
	Number	Number
Football operations	121	110
Administration	81	78
Matchday	207	177
Total	409	365

4 Employees (Continued)

Their aggregate remuneration comprised:

	2023	2022
	£	£
Wages and salaries	24,330,435	15,603,903
Social security costs	3,150,841	2,078,383
Pension costs	112,319	142,439
	27,593,595	17,824,725

5 Directors' remuneration

	2023	2022
	£	£
Remuneration for qualifying services	1,802,314	789,080
Company pension contributions to defined contribution schemes	21,619	41,619
	1,823,933	830,699

The number of directors for whom retirement benefits are accruing under defined contribution schemes amounted to 2 (2022 - 2).

Remuneration disclosed above includes the following amounts paid to the highest paid director:

	2023	2022
	£	£
Remuneration for qualifying services	1,328,394	665,096
Company pension contributions to defined contribution schemes	16,236	35,349

6 Share-based payment transactions

In May 2023 equity settled share options over the parent company's shares with a total tax value of £120,000 were granted to certain officers of the company. The options are exercisable on the earlier of a sale of the parent company, retirement or 9 years 6 months from the grant date. The options are exercisable at a price equal to the market value of the corresponding shares at the grant date. That market value and the total number of options granted is pending agreement with the tax authorities. The directors have assessed the fair value of the options granted with reference to the total tax value adjusted to an unrestricted market value basis.

As the total tax value is limited to £120,000, the directors do not anticipate that the accounting charge, once finalised will be material and as such, no accounting charge has been recognised in the company accounts in the current period.

7 Operating loss

	2023	2022
Operating loss for the year is stated after charging:	£	£
Depreciation of owned tangible fixed assets	209,900	211,022
Depreciation of tangible fixed assets held under finance leases	14,964	14,964
Amortisation of intangible assets	2,395,107	1,685,636
Operating lease charges	364,522	333,546

8 Auditor's remuneration

	2023	2022
Fees payable to the company's auditor and its associates:	£	£
For audit services		
Audit of the financial statements of the company	35,000	25,875

9 Interest receivable and similar income

	2023	2022
	£	£
Interest income		
Interest on bank deposits	43	-

10 Taxation

	2023	2022
	£	£
UK corporation tax on profits for the current period	-	-
Deferred tax		
Origination and reversal of timing differences	(8,044,384)	-
Adjustment in respect of prior periods	112,519	-
Total deferred tax	(7,931,865)	-

10 Taxation (Continued)

The total tax (credit)/charge for the year included in the statement of comprehensive income can be reconciled to the loss before tax multiplied by the standard rate of tax as follows:

	2023 £	2022 £
Loss before taxation	(16,293,595)	(6,380,229)
Expected tax credit based on the standard rate of corporation tax in the UK of 20.50% (2022: 19.00%)	(3,339,518)	(1,212,244)
Tax effect of expenses that are not deductible in determining taxable profit	11,523	5,272
Tax effect of income not taxable in determining taxable profit	(1,066)	-
Deferred tax adjustments in respect of prior years	112,519	-
Other	1,681	(94,116)
Tax losses arising in the period for which no deferred tax asset has been recognised	-	1,301,088
Fixed asset differences	(1,428)	-
Recognition of a deferred tax asset on prior period tax losses not previously recognised as a deferred tax asset	(4,715,576)	-
Taxation credit for the year	(7,931,865)	-

In the prior year, deferred tax was not recognised in respect of losses of £26,943,530 because it was not considered probable that they would be recovered against the reversal of deferred tax liabilities or other future taxable profits. In the current year a deferred tax asset has been recognised (refer to note 2).

In the Spring Budget 2021, the Government announced measures to support economic recovery as a result of the ongoing COVID-19 pandemic. These included an increase to the UK's main corporation tax rate to 25%, which was effected from 1 April 2023.

11 Player trading

The total sums payable in respect of transfer fees, compensation fees, loan fees and subsequent payments that have become due under transfers totalled £4,964,712 (2022: £407,067) at the reporting date and is included in trade creditors.

The total sums receivable in respect of transfer fees, compensation fees, loan fees and subsequent payments that have become due under transfers totalled £532,214 (2022: £777,139) at the reporting date and is included in trade debtors.

12 Intangible fixed assets

	Player registrations
	£
Cost	
At 1 July 2022	5,499,510
Additions	6,789,733
Disposals	(438,769)
At 30 June 2023	11,850,474
Amortisation	
At 1 July 2022	1,967,127
Amortisation charged for the year	2,395,107
Disposals	(397,475)
At 30 June 2023	3,964,759
Carrying amount	
At 30 June 2023	7,885,715
At 30 June 2022	3,532,383

The amortisation charge for the year is recognised within administrative expenses.

13 Tangible fixed assets

	Fixtures, fittings and equipment	Motor vehicles	Total
	£	£	£
Cost			
At 1 July 2022	1,665,011	136,848	1,801,859
Additions	60,210	26,973	87,183
At 30 June 2023	1,725,221	163,821	1,889,042
Depreciation			
At 1 July 2022	1,234,524	111,976	1,346,500
Depreciation charged in the year	200,236	24,628	224,864
At 30 June 2023	1,434,760	136,604	1,571,364
Carrying amount			
At 30 June 2023	290,461	27,217	317,678
At 30 June 2022	430,487	24,872	455,359

13 Tangible fixed assets (Continued)

The net carrying value of tangible fixed assets includes the following in respect of assets held under finance leases:

	2023	2022
	£	£
Motor vehicles	3,036	18,000

14 Stocks

	2023	2022
	£	£
Finished goods and goods for resale	180,320	78,751

During the year, stock with a carrying value of £nil (2022: £5,019) was written off. The write off was recognised within cost of sales.

The difference between the carrying value of stock and its replacement cost is not material.

15 Debtors

	2023	2022
Amounts falling due within one year:	£	£
Trade debtors	1,337,276	988,834
Other debtors	611,553	42,712
Prepayments and accrued income	668,608	896,778
	2,617,437	1,928,324
Deferred tax asset (note 20)	7,931,865	-
	10,549,302	1,928,324

	2023	2022
Amounts falling due after more than one year:	£	£
Trade debtors	109,333	250,124
Total debtors	10,658,635	2,178,448

16 Creditors: amounts falling due within one year

	Notes	2023 £	2022 £
Obligations under finance leases	19	12,793	12,931
Other borrowings	18	2,538,375	2,238,175
Trade creditors		3,587,417	737,764
Amounts owed to group undertakings		11,804,327	1,768,537
Taxation and social security		622,712	924,437
Other creditors		33,767	18,141
Accruals and deferred income		13,534,471	5,786,940
		32,133,862	11,486,925

Amounts owed to group undertakings are unsecured, interest free and have no fixed date of repayment. These amounts are repayable on demand.

17 Creditors: amounts falling due after more than one year

	Notes	2023 £	2022 £
Obligations under finance leases	19	-	12,793
Other borrowings	18	-	2,238,375
Trade creditors		2,475,000	170,000
		2,475,000	2,421,168

18 Borrowings

	2023 £	2022 £
Other loans	2,538,375	4,476,550
Payable within one year	2,538,375	2,238,175
Payable after one year	-	2,238,375

During the year to 30 June 2020, the company received a loan from the English Football League ('EFL') of £584,000 to support the operation of the club during the COVID-19 pandemic. Repayments were originally due to be made in 6 equal bi-annual instalments and deducted from future EFL income. During the year to 30 June 2021, the EFL announced that repayments would be deferred as a result of the continuation of the COVID-19 pandemic with the first repayment due in October 2021. The terms of the loan stipulate that outstanding amounts become repayable on promotion to the Premier League. Following the Club's promotion to the Premier League in May 2023, the loan was repayable on demand at the year end. As a result at the year end, £194,800 (2022: £194,600) was payable within one year and £nil (2022: £194,800) was payable after one year. Amounts are included in other borrowings. No interest is charged on this loan.

18 Borrowings (Continued)

During the year to 30 June 2021, the company received a loan from the English Football League ('EFL') of £5,364,384 to support the operation of the club during the COVID-19 pandemic. An additional drawdown of this loan was taken in July 2021, increasing the full value of the loan to £6,130,724. Repayments will be made in 6 equal instalments and will be deducted from future Premier League Solidarity income. The terms of the loan stipulate that outstanding amounts become repayable on promotion to the Premier League. Following the Club's promotion to the Premier League in May 2023, the loan was repayable on demand at the year end. As a result at the year end, £2,043,575 (2022: £2,043,575) was payable within one year and £nil (2022: £2,043,575) was payable after one year. Amounts are included in other borrowings. No interest is charged on this loan.

During the year, £3,100,000 was advanced from individuals who are directors or quasi directors of the company. The amounts are interest free, unsecured and repayable on demand. After repayments, at the year end £300,000 (2022: £nil) was outstanding payable within one year and included in other borrowings.

19 Finance lease obligations

Future minimum lease payments due under finance leases:	2023 £	2022 £
Less than one year	12,793	12,931
Between one and five years	-	12,793
	12,793	25,724

Finance lease terms represent rentals payable by the group for certain motor vehicles. The average lease term is 5 years. The liability is secured on the related assets.

20 Deferred taxation

Deferred tax assets and liabilities are offset where the company has a legally enforceable right to do so. The following is the analysis of the deferred tax balances (after offset) for financial reporting purposes:

Balances:	Assets 2023 £	Assets 2022 £
ACAs	(53,728)	-
Tax losses	7,923,527	-
Short term timing differences	62,066	-
	7,931,865	-

20 Deferred taxation (Continued)

Movements in the year:	2023 £
Liability at 1 July 2022	-
Credit to profit or loss	(7,931,865)
Asset at 30 June 2023	(7,931,865)

The deferred tax asset set out above is expected to reverse within 12 months and relates principally to the utilisation of tax losses against future expected profits of the same period.

21 Retirement benefit schemes

Defined contribution schemes	2023 £	2022 £
Charge to profit or loss in respect of defined contribution schemes	112,319	142,439

A defined contribution pension scheme is operated for all qualifying employees. The assets of the scheme are held separately from those of the company in an independently administered fund. Contributions totalling £15,888 (2022: £nil) were payable to the fund at the reporting date and are included in other creditors.

Defined benefit schemes

Luton Town Football Club ('the Club') participates in the Football League Pension and Life Assurance Scheme ('the Scheme'). The Scheme is a funded multi-employer defined benefit scheme, with 92 participating employers, and where members may have periods of service attributable to several participating employers. The Club is unable to identify its share of the assets and liabilities of the Scheme and therefore accounts for its contributions as if they were paid to a defined contribution scheme.

The last actuarial valuation was carried out at 31 August 2020 where the total deficit on the on-going valuation basis was £27.553 million. The key assumptions used to calculate the deficit at the 31 August 2020 actuarial valuation are:

Valuation	
Discount Rate:	Gilt Yield Curve + 2.0% per annum
RPI inflation:	Bank of England Inflation Curve
Pension Increases:	Fixed 3.0% per annum for benefits accrued prior to 6 April 1997, and modelled using the RPI inflation assumption with a cap of 5.0% per annum and a floor of 3.0% per annum for benefits accrued after 6 April 1997
Mortality (pre-retirement):	None
Mortality (post-retirement):	SAPS (Series 3) with CMI_2019 projections, a long-term improvement rate of 1.5% p.a. and an initial additional parameter of 0.5% p.a.

21 Retirement benefit schemes (Continued)

The accrual of benefits ceased within the Scheme on 31 August 1999, therefore there are no contributions relating to current accrual. The Club pays monthly contributions based on a notional split of the total expenses and deficit contributions of the Scheme.

The results of the 2020 valuation were rolled forward to 30 June 2023 on the same assumptions as detailed above, and the Club's notional share of the deficit was £212,164 (2022: £256,703).

As at 30 June 2023, the Club was paying total contributions of £4,571 per month (increasing by 5% p.a. on 1 September each year) and based on the actuarial valuation assumptions detailed above will be sufficient to pay off the deficit by 30 June 2027.

As at 30 June 2023, based on an appropriate discount rate of 6.39% per annum (3.35% per annum as at 30 June 2022), the present value of the Club's outstanding contributions (i.e. their future liability) is £217,264 (2022: £276,360). Amounts totalling £57,142 (2022: £54,421) and £160,122 (2022: £221,939) are payable within one year and after more than one year respectively.

	2023 £	2022 £
Present value of defined benefit obligations	217,264	276,360
Deficit in scheme	217,264	276,360

21 Retirement benefit schemes (Continued)

Movements in the present value of defined benefit obligations	2023 £
Liabilities at 1 July 2022	276,360
Deficit contributions	(54,421)
Net interest charge	8,334
Remeasurement	(13,009)
Liabilities at 30 June 2023	217,264

The defined benefit obligations arise from plans which are wholly or partly funded.

Income and Expenditure Impact

	2023 £	2022 £
Net interest charge (unwinding of discount rate)	8,334	2,480
Remeasurement (changes in assumptions)	(13,009)	(18,359)

Assumptions

	2023	2022
Discount Rate (based on AA Corporate Bond Yields of appropriate currency/duration)	6.39%	3.35%

The funding objective of the Trustees of the Scheme is to have sufficient assets to meet the Technical Provisions of the Scheme. In order to remove the deficit revealed at the previous actuarial valuation (dated 31 August 2020), deficit contributions are payable by all participating clubs. Payments are made in accordance with a pension contribution schedule. As the Scheme is closed to accrual, there are no additional costs associated with the accruing of members' future benefits. In the case of a club being relegated from the Football League and being unable to settle its debt then the remaining clubs may, in exceptional circumstances, have to share the deficit.

Upon the wind-up of the Scheme with a surplus, any surplus will be used to augment benefits. Under the more likely scenario of there being a deficit, this will be split amongst the clubs in line with their contribution schedule. Should an individual club leave the Scheme, they may be required to pay their share of the deficit based on a proxy buyout basis (i.e. valuing the benefits on a basis consistent with buying out the benefits with an insurance company).

22 Share capital

	2023 Number	2022 Number	2023 £	2022 £
Ordinary share capital				
Issued and fully paid				
Ordinary shares of £1 each	18,145,003	18,145,003	18,145,003	18,145,003

The shares have attached to them full voting, dividend and capital distribution (including on winding up) rights.

	2023	2022
	£	£
Within one year	169,748	169,134
Between one and five years	434,871	448,817
In over five years	-	69,300
	604,619	687,251

25 Contingent assets and liabilities

Player registration fees

Excluding items already provided in the Statement of Financial Position, at 30 June 2023 the Company had a possible liability to pay up to £1,140,000 of additional transfer fees (2022: £1,855,000) in respect of players under contract, dependent upon a number of contingent events occurring after the year end, such as players making specific numbers of appearances and gaining international honours.

At 30 June 2023, the Company had expected contingent sums receivable of £2,296,000 (2022: £2,726,000) in respect of players sold, should certain contingent events occur. The total contingent sum receivable is based on the probable outcome of a range of factors.

26 Events after the reporting date

Since the year end, Luton Town Football Club has acquired and extended a number of player registrations at an initial cost of £22m. Additionally a number of player registrations were disposed of with an associated net book value of £0.3m. These transactions will be accounted for in the year ending 30 June 2024.
