THE MILLWALL FOOTBALL AND ATHLETIC COMPANY (1985) LIMITED

STRATEGIC REPORT

FOR THE YEAR ENDED 30 JUNE 2025

The directors present the strategic report for the year ended 30 June 2025.

Review of the business

The 2024/25 campaign marked Millwall's eighth consecutive season in the Sky Bet Championship – the second tier of English football.

The start of the season was overshadowed by the tragic and unexpected passing of First Team goalkeeper Matija Sarkic, who died at the age of 26 on June 15th, 2025. Fondly known as Mati by friends, family and colleagues, Matija made 33 appearances for the club after joining from Wolverhampton Wanderers in August 2023. A proud Montenegro international, he represented his country with distinction on several occasions.

In his memory, the club retired his number 20 shirt, unveiled a mural at The Den funded by the Millwall Supporters Club, and introduced a new annual honour - the Matija Sarkic Award for Save of the Season. Matija is deeply missed by everyone connected with the club.

The 2024/25 season was a transitional period both on and off the pitch. The Lions narrowly missed out on a play-off position, finishing 8th in the Championship with 66 points – a five-point improvement on the previous season. The team averaged 1.44 points per game, recording 18 wins, 12 draws, and 16 defeats.

There were notable changes to the club's senior management structure ahead of pre-season. Mark Fairbrother returned as Managing Director, while Steve Gallen joined as Director of Football.

After returning to Millwall in February 2024, Neil Harris departed by mutual consent in December 2024, ending his second spell in charge as manager. Long-serving coach Adam Barrett also concluded his seven-year tenure to pursue new opportunities.

In the interim, David Livermore took temporary charge before the appointment of Alex Neil as Head Coach. The Scotsman led his first game on New Year's Day against Oxford United, joined by Martin Canning as Assistant Head Coach.

The team's performance improved notably in the second half of the season, with the average points per game rising from 1.26 (August-December 2024) to 1.60 (January-May 2025).

Across the campaign, 37 players featured for the First Team, with an average squad age of 24.1. The summer transfer window saw eight permanent and three loan signings, including: Lukas Jensen, Liam Roberts, Japhet Tanganga, Shaun Hutchinson, Femi Azeez, Daniel Kelly, Mihailo Ivanovic, Macaulay Langstaff, and loanees Calum Scanlon, Ryan Wintle, and Josh Coburn.

In January, the squad was further strengthened with seven permanent additions and one loan arrival: Tristan Crama, Luke Cundle, Aaron Connolly, Camiel Neghli, Zak Lovelace, Benicio Baker, Ajay Matthews, and loanee Zak Sturge. Summer signing Mihailo Ivanovic finished as the club's top goalscorer with 13 goals in all competitions.

It was another memorable year for the Millwall Academy. Ra'ees Bangura-Williams made his First Team debut under Alex Neil in the FA Cup Third Round against Dagenham & Redbridge, marking the occasion with a goal. The 19-year-old went on to make 13 senior appearances during the season.

That same fixture also saw 16-year-old Sheldon Kendall make his First Team debut - a proud moment for the club's youth development pathway. In January 2025, academy graduate Romain Esse completed a club-record transfer to Crystal Palace. Having joined Millwall at the age of nine, Romain progressed through every academy level before debuting at 17 in a 2-0 Boxing Day win at Watford in 2022. He made 66 senior appearances for The Lions and represented England at multiple youth levels.

The club is required to comply with the EFL's Profit and Sustainability Rules which, in overview, permit clubs to incur losses up to £39m over a three-year period before any restrictions on spending are applied, providing that losses in excess of £5m per year are funded through equity. In the season under review, the club were once again well within these financial limits and the Board remains totally committed to complete compliance with the rules to ensure the sustainability and health of the club for the benefit of all stakeholders.

Competitive imbalances within the Championship continue to grow each season as the financial strength of the Premier League, the division above, increases year on year. Clubs relegated from the Premier League into the Championship arrive with parachute payments, which serve to distort on-pitch competition, player salaries, the recruitment market, and more.

Discussions around an independent regulator continues and the club welcomes the reintroduction of The Football Governance Bill, which was introduced in June 2025. Key will now be an understanding of the approach and application of the independent football regulator to ensure that their remit covers key sporting challenges around a redistribution of income from the Premier League to the EFL, providing it comes with enhanced regulation to help improve the sustainability of clubs.

A review of the Group's financing, property development and regeneration activities is provided later in this report.

Results

The statement of comprehensive income is set out on page 11.

Revenue for the year at £23.9m (2024 - £21.4m) is an increase of 11%. Matchday revenue landed at £7.3m in 2024/25 (£7.4m in 23/24) Commercial revenue has seen a 13% increase., whilst central income, mainly from EFL basic award and Premier League Solidarity has a 20% increase year on year.

Average league attendance for the year was 15,497 compared to an average of 16,544 in 2024, representing a year-on-year decrease of 6% largely driven by lower season ticket sales at the end of the 2023/24 season.

Total staff costs of £28.6m represent a 12% increase over the prior year (2024 - £25.6m), reflecting the continued investment both into the playing squad, as well as the football management team that took place during the year.
Other admin expenses have increased 1% year on year to £10.2m (2023/24 £10m), signifying implementation of efficient and tighter cost controls across the board.

The company achieved a record high Profit on Player Trading, £21.6m profit, namely from the sale of Romaine Esse and Zian Flemming in the season.

At 30 June 2025, the Company had net liabilities of £146m (2024 - £146m).

The Directors do not recommend payment of a dividend.

Commercial Endeavours

The club would like to thank all commercial partners, at all levels, for their invaluable support throughout 2024/25 and in helping drive a 13% growth in commercial revenues overall from 23/24.

The clubs second season with Fanatics as a retail partner saw a continued growth in turnover and profitability with total year sales growing 13% year on year and hitting forecasted revenues for year three of the partnership a year early. In part this was driven by a sustained effort to launch all three kits for the upcoming campaign as early as possible in the summer, alongside technical partner, Erreà.

The club also signed a new long-term front of shirt partnership with Digital payments partner MyGuava alongside a number of new Official Partnerships with SpreadEx, Carabao Sport, Quinnbet, Maxamaze and NordVPN all coming on board. Renewed and enhanced agreements with existing club partners; Shepherd Neame and Matchworn shirt, were also negotiated. The Shepherd Neame agreement in particular allowed for the creation of the Spitfire Bar; a totally new 'pub style' bar for general admission fans in what was previously a dilapidated secondary matchday retail unit.

Millwall's international audience grew once again year on year, with direct sales supported by renewed relationships with ticket re-sale partners P1 travel, Travel connection, Go Sport travel and XS2, with over 5,500 unique overseas supporters visiting The Den

Millwall's international audience grew once again year on year, with direct sales supported by renewed relationships with ticket re-sale partners P1 travel, Travel connection, Go Sport travel and XS2. Attendees came from a total of 75 countries across the season, seven more than in 23/24 with visitors coming from destinations as varied as Guatemala, Malaysia, Martinique and Bosnia and Herzegovinia for the first time. German Lions continued to make up the highest proportion of the international audience, representing 13% of the total International match attendees. While Italian visitors climbed to second place, growing form 8% to 12.5% of the total year on year.

Finance

The Company, via Millwall Holdings Limited, continues to be funded by its principal shareholder, Chestnut Hill Ventures LLC ("CHV") and by its Directors. The existing facility is £20m (CHV Facility) with £10m outstanding at the year end. Additional funding requirements during the year have been met by CHV and certain Directors subscribing for new ordinary shares of £10,000 each at par. During the year 1155 ordinary shares were issued for cash raising £15.7m of funds for the Group.

The CHV Facility and the £525,000 2013 Unsecured Loan Notes (Loan Notes), held by Directors and their associates, were repayable on 1 July 2025. CHV and the Loan Notes holders had agreed that no interest would accrue in respect of the CHV Facility and Loan Notes until 30 June 2025. By an agreement dated 30 June 2025, CHV extended the suspension of interest until 1 July 2025 (when interest will begin to accrue again unless CHV agrees otherwise). The other Loan Notes holders have agreed that no interest will accrue on the Loan Notes until the date on which the Company and CHV agree that interest will begin to accrue again in respect of the CHV Facility. The repayment date of the CHV Facility and other Loan Notes was also extended to 1 July 2027.

The Directors are of the view that, together with the further arrangements referred to in note 1.2 to the financial statements, ongoing equity investment and extended loan facilities from CHV and the Directors, provides the Company with sufficient access to working capital to fund the operations of the Company over the next few years.

Regeneration

As reported in the previous year, the club's improved relations with Lewisham Council and Renewal, the property developer for the adjacent site, continued during the year with further progressive talks held with the Mayor, Damien Egan and his replacement Brenda Dacres as well as with senior planning officers from Lewisham.

In May 2024 the club and Lewisham Council agreed the key terms of a 999-year lease for the land surrounding The Den, which will give the club development rights as part of plans designed to benefit the club, its supporters, the Council itself as well as the local community generally.

At the time of writing, the full lease agreement is being finalised and is expected to be signed in late 2025. The club expresses its gratitude to the Council and its senior officers for their approach to these discussions.

Other information and explanations

Training Ground

As reported in previous years, in October 2022, Sevenoaks Council's planning committee formally approved the club's plans for a new training ground on a 100-acre site in West Kingsdown, Kent. This new location is designed to bring together the First Team and Academy, and their respective support and administration staff, rather than have them operate on separate sites as it currently the case. This brings about varying logistical challenges which a new location would serve to reduce. With the significant increases in cost of building materials and labour, this has impacted on initial project plans and has impacted on the short-term completion goals initially set.

To give the club certainty over its training facilities, in January 2025 the club purchased its first team and under 21s training facility at Calmont Road. Since the sale and leaseback of Calmont Road in 2006, annually, the Club has been suffering a significant financial burden to rent the site and therefore limited its options to develop the training ground.

With the previous lease due to expire in 2026, the freehold purchase of the site provides short and mid-term certainty of tenure, and now free of lease terms and potential significant rental increase, the Club has the ability to explore its long-term strategic options around both First Team and Academy training centres at its own pace.

During summer 2024, a considerable financial commitment was made to improve Calmont Road's pitches with new stitching and drainage installed. Subsequent to the year end, further freehold improvements have been made to upgrade its facilities for players, management and staff, including a new recovery suite, changing rooms as well as offices and presentation space.

Community Trust

Millwall Community Trust (MCT) continues to work proudly across Lewisham and Southwark, which they have done since 1985, to support the local community. The 2024/25 season saw Millwall Community Trust provide 9,500 free meals whilst also providing the same number of free places on its holiday camps, whilst working with 14,500 people in the local community.

The club's commitment to a thriving and ultimately successful Community Trust is reflected by having two of its Directors and two members of senior management on the Board of Trustees. The strength and depth of the relationship is also demonstrated by financial support and by making club facilities, resources, and assets available for their benefit, including the arranging of first team player visits to different programmes across the season.

Millwall's Employability & IAG Hub employment support programmes have continued to thrive with two large scale job fairs at The Lions Centre in partnership with DWP Job Centre Plus. Throughout the successful calendar year, there has been over 400 positive job outcomes including employment, work trial, and training. The trust has worked with over 75 employment and training partners whilst engaging with over 1,000 unemployed attendees in the local community.

Millwall Community Trust manage three sites for the local councils and schools whilst working with over 40 schools in the borough delivering numeracy and literacy programmes, physical activity, and healthy lifestyle programmes. As well as this, MCT have a Divert officer based in Lewisham Police station to promote positive change in the lives of young people with the aim of reducing anti-social behaviour and violent crime in the local community. Millwall's Premier League Kicks programme engaged with 1,443 participants across 1,092 hours in 2024/25 with over 523 young people entering tournaments.

MCT's social impact value to Southwark and Lewisham Councils is approx £7.2million each council. MCT is strongly committed to EDI with it LGBTQ programmes (Millwall Romans and Pride) . Millwall has continued to support work outside its catchment area, with provision being delivered in Kent ie. Free antisocial behaviour summer provision alongside Kent Cricket Club which engages over 800 participants.

Principal risks and uncertainties

In common with many football clubs outside the FA Premier League the main business risk is the maintenance of a positive cash flow, bearing in mind the uncertainty of turnover and the high cost of maintaining a playing squad on which the success of the Group's business is largely dependent. In order to achieve a positive cash flow there is the constant requirement to raise new finance and refinance existing facilities which, in turn, requires the continuing support of existing providers of those facilities.

A significant amount of the Club's revenue derives from ticket sales. Income generated from gate receipts is highly dependent on the level of attendance at matches. The COVID-19 pandemic has highlighted the reliance of all football clubs on matchday revenue, and cost control measures can and have been implemented, these cannot mitigate the lost income seen at present.

Some income streams of the Club (such as television rights and related income) are dependent on third party contracts and arrangements to which the Club is not a party and over which the C ub can exercise no or little influence.

As part of its normal activities, the Club deals in the trading of player registrations and there is always a risk of significant and lasting injuries to players that may impair player values. Players aged 24 years or older are free to move between clubs once their contract has come to an end and Directors monitor expiry dates carefully with a view to renewing contracts or realising value.

Relevant business risks are discussed during Board meetings so that, where a material exposure is identified, mitigating action can be taken.

Post Balance Sheet Events

Subsequent to the year end, the Company had a busy summer transfer window and acquired the permanent registrations of Coburn, Sturge, Crocombe, Coleman, Taylor, Doughty, Luongo and Mazou-Sacko as well as the temporary registrations of Ballo, Benda and Smallbone.

Going concern

In assessing the appropriateness of the going concern assumption, the Directors have produced detailed cash flow forecasts until 30 June 2027.

The Director's have continued to undertake a range of measures to ensure a prudent running of the organisation. There is a £20m facility in place from CHV that was drawn to £10m as at the year end, which does not fall due for repayment until 1 July 2027. The Directors believe this, in conjunction with the ongoing support of the Company's principal shareholder, provides sufficient working capital for the current needs of the Group and Company for the foreseeable future.
As reported last year, the UK Government has been progressing with the Football Governance Bill, which was passed by Parliament in June 2025. This regulation includes the establishment of an independent regulator for football as well as looking at the engagement with supporter groups through the establishment of a shadow board and a review of the uneven distribution system through the English football pyramid. As a Club the Directors support the recommendations made in the Football Governance Bill, and are actively taking steps to adopt some of the measures recommended in advance of any structural change within the football environment.

THE MILLWALL FOOTBALL AND ATHLETIC COMPANY (1985) LIMITED

DIRECTORS' REPORT

FOR THE YEAR ENDED 30 JUNE 2025

The directors present their annual report and financial statements for the year ended 30 June 2025.

Principal activities
The principal activity of the company continued to be that of a professional football club.

Results and dividends
The results for the year are set out on page 11.

No ordinary dividends were paid. The directors do not recommend payment of a final dividend.

Directors
The directors who held office during the year and up to the date of signature of the financial statements were as follows:

J Berylson
P Garston
C Gonticas
M K Sidman
T J Keyse
D Kouvaris
R S Press
M Fairbrother

Statement of disclosure to auditor
So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the company's auditor is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the company's auditor is aware of that information.

Medium-sized companies exemption
This report has been prepared in accordance with the provisions applicable to companies entitled to the medium-sized companies exemption.

On behalf of the board

M Fairbrother
Director

THE MILLWALL FOOTBALL AND ATHLETIC COMPANY (1985) LIMITED

DIRECTORS' RESPONSIBILITIES STATEMENT

FOR THE YEAR ENDED 30 JUNE 2025

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

THE MILLWALL FOOTBALL AND ATHLETIC COMPANY (1985) LIMITED

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF THE MILLWALL FOOTBALL AND ATHLETIC COMPANY (1985) LIMITED

Opinion

We have audited the financial statements of The Millwall Football and Athletic Company (1985) Limited (the 'company') for the year ended 30 June 2025 which comprise the statement of comprehensive income, the statement of financial position, the statement of changes in equity and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 30 June 2025 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty in relation to going concern

We draw attention to Note 1.2 in the financial statements, which indicates that the ability of the group and company to continue as a going concern is dependent on additional funding from the shareholder that is not guaranteed. As stated in Note 1.2, these events or conditions indicate that a material uncertainty exists that may cast significant doubt on the company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of our audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities is available on the Financial Reporting Council's website at: https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above and on the Financial Reporting Council's website, to detect material misstatements in respect of irregularities, including fraud.

We obtain and update our understanding of the entity, its activities, ts control environment, and likely future developments, including in relation to the legal and regulatory framework applicable and how the entity is complying with that framework. Based on this understanding, we identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. This includes consideration of the risk of acts by the entity that were contrary to applicable laws and regulations, including fraud.

In response to the risk of irregularities and non-compliance with laws and regulations, including fraud, we designed procedures which included:

- Enquiry of management and those charged with governance around actual and potential litigation and claims as well as actual, suspected and alleged fraud;
- Reviewing minutes of meetings of those charged with governance;
- Assessing the extent of compliance with the laws and regulations considered to have a direct material effect on the financial statements or the operations of the company through enquiry and inspection;
- Reviewing financial statement disclosures and testing to supporting documentation to assess compliance with applicable laws and regulations;
- Performing audit work over the risk of management bias and override of controls, including testing of journal entries and other adjustments for appropriateness, evaluating the business rationale of significant transactions outside the normal course of business and reviewing accounting estimates for indicators of potential bias.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Company information

The Millwall Football and Athletic Company (1985) Limited is a private company limited by shares incorporated in England and Wales. The registered office is The Den, John Berylson Way, London, UK, SE16 3LN.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention unless otherwise stated within these accounting policied. The principal accounting policies adopted are set out below.

This company is a qualifying entity for the purposes of FRS 102, being a member of a group where the parent of that group prepares publicly available consolidated financial statements, including this company, which are intended to give a true and fair view of the assets, liabilities, financial position and profit or loss of the group. The company has therefore taken advantage of exemptions from the following disclosure requirements:

- Section 7 'Statement of Cash Flows': Presentation of a statement of cash flow and related notes and disclosures;
- Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instrument Issues: Interest income/expense and net gains/losses for financial instruments not measured at fair value; basis of determining fair values; details of collateral, loan defaults or breaches, details of hedges, hedging fair value changes recognised in profit or loss and in other comprehensive income;
- Section 26 'Share based Payment': Share-based payment expense charged to profit or loss, reconciliation of opening and closing number and weighted average exercise price of share options, how the fair value of options granted was measured, measurement and carrying amount of liabilities for cash-settled share-based payments, explanation of modifications to arrangements;
- Section 33 'Related Party Disclosures': Compensation for key management personnel.

The financial statements of the company are consolidated in the financial statements of Millwall Holdings Limited. These consolidated financial statements are available from the Registrar of Companies Registration Office, Crown Way, Cardiff, CF4 3UZ.

1 Accounting policies **(Continued)**

1.2 Going concern

In assessing the appropriateness of the going concern assumption, the Directors have produced detailed cash flow forecasts until 30 June 2027. The directors have continued to undertake a range of measures to ensure a prudent running of the organisation. The Company's immediate parent, Millwall Holdings Limited has a £20m facility in place from CHV that was drawn to £10m as at the year end, which does not fall due for repayment until 1 July 2027. The Directors believe this, in conjunction with the ongoing support of the Group's principal shareholder, provides sufficient working capital for the current needs of the Company for the foreseeable future.

As reported last year, the UK Government has been progressed with the Football Governance Bill, which has been approved and became law during the year. This regulation includes the establishment of an independent regulator for football as well as looking at the engagement with supporter groups through the establishment of a shadow board and a review of the uneven distribution system through the English football pyramid. As a Club the Directors support the recommendations made in the Government review and welcome the progress that has been made to date on the Football Governance Bill and are actively taking steps to adopt some of the measures recommended in advance of any structural change within the football environment.

At 30 June 2025, the Company had net liabilities of £146.1 million and net current liabilities of £179.1 million.

The directors continually monitor the financial position of the Company and have prepared the financial statements on a going concern basis, having had regard to:

- cash flow projections prepared to 30 June 2026, and expected cash flow forecasts for the year thereafter i.e. 30 June 2027, including the effect of player trading; and
- the continuing provision of facilities to the Group from Chestnut Hill Ventures LLC ("CHV"). The repayment date on the existing 10 million loan facility was extended during the year to 1 July 2027, with interest accruing only from 1 July 2026. CHV has also undertaken to provide the Group with further support, if necessary, for at least the next 12 months, as it has done during the current and previous financial years.

Forecasts prepared for and reviewed by the board demonstrate that in most reasonable scenarios additional shareholder funding will be required which is not yet guaranteed. As such, the directors have identified a material uncertainty that may cast significant doubt over the Company's ability to continue as a going concern and therefore its ability to realise its assets and discharge its liabilities in the normal course of business.

While there will always remain inherent uncertainty, the directors remain confident that they will be able to manage the Company's finances and operations so as to achieve the forecasted cash flows and, with the continued support of CHV, consider that it is appropriate to draw up the financial statements on a going concern basis. A letter of support has also been provided.

The financial statements do not include any adjustments that would result if the going concern basis of preparation were to become no longer appropriate.

1.3 Turnover

Turnover represents income receivable from the Company's principal activities excluding transfer fees and value added tax.

Turnover is analysed between three categories of income streams: Match Day, Central League Awards and Commercial.

Match Day

Match Day turnover represents income receivable from all match day activities from Millwall games at The Den, together with the share of gate receipts from cup games not played at The Den. The share of gate receipts payable to the other participating club for domestic cup matches played at The Den is treated as a reduction in turnover. Season ticket revenue is recognised over the period of the football season as home matches are played.

1 Accounting policies **(Continued)**

Central League Awards
Central League Award revenue comprises the Basic Award and the Solidarity Award from the Football League, along with grant income for the Academy, prize money earned from cup competitions. Awards are recognised over the financial period to which they relate once recovery is considered probable and the revenue can be measured reliably.

Commercial
Commercial revenue comprises income receivable through sponsorship, shop revenue, use of the conference and catering facilities at The Den on non-match days and sundry other income. Sponsorship contracts are recognised over the duration of the contract, either on a straight line basis, or over the period of the football season, as appropriate based on the terms of the contract. Catering revenues are recognised on an earned basis. Revenue from sale of branded products is recognised at the point of dispatch when significant risks and rewards of ownership is deemed to have been transferred to the buyer.

1.4 Intangible fixed assets other than goodwill
The costs associated with the acquisition of players' registrations are initially recorded at fair value of the consideration payable at the date of acquisition as intangible fixed assets.

For the purposes of impairment reviews, acquired players' registrations are classified within the single football club cash-generating unit until the point at which it is made clear that the player is no longer an active member of the playing squad which is typically because either the player is out of favour with the team, or the player is permanently injured. In these circumstances the carrying value of the player's registration is reviewed against market value less costs to sell and impaired to the extent that the carrying value exceeds this net realisable value.

In situations where a player is permanently injured, fair value is considered to be expected insurance recovery amount.

Amortisation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Players' registrations	Over the period of the respective players' contracts

1.5 Tangible fixed assets
Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Fixtures and fittings	10%-33% per annum
Motor vehicles	25% per annum
Land & Buildings	1% per annum
Leasehold improvements	Over the life of the lease

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

1.6 Impairment of fixed assets
At each reporting period end date, the company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

1 Accounting policies **(Continued)**

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

1.7 Stocks

Stocks are stated at the lower of cost and net realisable value. Net realisable value is based on estimated selling price, less further costs expected to be incurred to disposal. Provision is made for obsolete, slow-moving or defective items where appropriate.

1.8 Cash and cash equivalents

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.9 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's statement of financial position when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Other financial assets

Other financial assets are initially measured at fair value, which is normally the transaction price. Such assets are subsequently carried at fair value and the changes in fair value are recognised in profit or loss, except that investments in equity instruments that are not publicly traded and whose fair values cannot be measured reliably are measured at cost less impairment.

1 **Accounting policies** **(Continued)**

Impairment of financial assets

Financial assets, other than those held at fair value through profit and loss, are assessed for indicators of mpairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the company transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Basic financial liabilities

Basic financial liabilities, including creditors, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Other financial liabilities

Derivatives, including interest rate swaps and forward foreign exchange contracts, are not basic financial instruments. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Changes in the fair value of derivatives are recognised in profit or loss in finance costs or finance income as appropriate, unless hedge accounting is applied and the hedge is a cash flow hedge.

Debt instruments that do not meet the conditions in FRS 102 paragraph 11.9 are subsequently measured at fair value through profit or loss. Debt instruments may be designated as being measured at fair value through profit or loss to eliminate or reduce an accounting mismatch or if the instruments are measured and their performance evaluated on a fair value basis in accordance with a documented risk management or investment strategy.

1 Accounting policies **(Continued)**

Deferred income

All income received in advance of football activities, such as season ticket revenue, league awards, advertising, sponsorship and broadcasting revenues are treated as deferred income and released to income over the period or number of matches to which they relate.

Derecognition of financial liabilities

Financial liabilities are derecognised when the company's contractual obligations expire or are discharged or cancelled.

1.10 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of transaction costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

1.11 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

1.12 Retirement benefits

Payments to defined contribution retirement benefit schemes are charged as an expense as they fall due.

Where the Company participates in a defined benefit plan, which is a multi-employer plan that is accounted for as if the plan were a defined contribution plan, and the Company has entered intp an agreement with the multi-employer plan that determines how the Company will fund a deficit, the Company recognises a liability for the contributions payable that arise from the agreement and a resulting expense in the Statement of Comprehensive Income.

1.13 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessees. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets at the lower of the assets fair value at the date of inception and the present value of the minimum lease payments. The related liability is included in the statement of financial position as a finance lease obligation. Lease payments are treated as consisting of capital and interest elements. The interest is charged to profit or loss so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Rentals payable under operating leases, including any lease incentives received, are charged to profit or loss on a straight line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the leases asset are consumed.

1.14 Signing on fees

Signing on fees are charged, on a straight line basis, to the statement of comprehensive income over the period of the player's contract. Prepayments/accruals arising at each period end are included within prepayments and accrued income or accruals within current assets or current liabilities, as appropriate. Where a player's registration is transferred, any signing on fee payable in respect of future periods are charged against the profit/(loss) on disposal of players' registrations in the period in which the disposal is recognised.

1 Accounting policies **(Continued)**

1.15 Transfer fees

Signing on fees are charged, on a straight line basis, to the statement of comprehensive income over the period of the player's contract. Prepayments/accruals arising at each period end are included within prepayments and accrued income or accruals within current assets or current liabilities, as appropriate. Where a player's registration is transferred, any signing on fee payable in respect of future periods are charged against the profit/(loss) on disposal of players' registrations in the period in which the disposal is recognised.

1.16 Grants

Grants relating to tangible fixed assets are treated as deferred income and released to the statement of comprehensive income over the expected useful lives of the assets concerned. Other grants are credited to profit and loss as the related expenditure is incurred.

2 Judgements and key sources of estimation uncertainty

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and 'uture periods where the revision affects both current and future periods.

Critical judgements

The following judgements (apart from those involv ng estimates) have had the most significant effect on amounts recognised in the financial statements.

Useful lives of intangible assets

Intangible assets are amortised over the length of the players' contracts which is deemed to be their useful lives and management's estimates as to their continuing usefulness to the football side.

3 Turnover and other revenue

	2025	2024
	£	£
Turnover analysed by class of business		
Match Day	7,262,300	7,413,051

Issued and fully paid				
Ordinary of £1 each	400,000	400,000	400,000	400,000

20 Operating lease commitments

As lessee

At the reporting end date the company had outstanding commitments for future minimum lease payments under non-cancellable operating leases, which fall due as follows:

	2025	2024
	£	**£**
Within 1 year	579,001	434,000
Years 2-5	391,166	495,000
After 5 years	5,539,953	5,589,000
	6,510,120	6,518,000

21 Capital commitments

Amounts contracted for but not provided in the financial statements:

	2025	2024
	£	**£**
Acquisition of tangible fixed assets	417,000	-

22 Pensions

The Club participates in the Football League Pension and Life Assurance Scheme ('the Scheme'). The Scheme is a funded multi-employer defined benefit scheme, with 92 participating employers, and where members may have periods of service attributable to several participating employers. The Club is unable to identify its share of the assets and liabilities of the Scheme and therefore accounts for its contributions as if they were paid to a defined contribution scheme.

The Club is making scheme funding payments based on the actuarial valuation carried our on 31 July 2023. The key assumptions used to calculate the deficit at the 31 August 2023 actuarial valuation were:

Discount Rate 4.55% p.a.
RPI inflation: 3.5% p.a.
Pension Increases: 3.5% p.a.
Mortality (pre-retirement): No allowance

The Club pays monthly contributions based on a notional split of the total expenses and deficit contributions of the Scheme.

The results of this actuarial valuation when the Club recognised its notional share of the deficit, calculated using the actuarial valuation assumptions, resulted in a liability of £268,976. This 2024 revaluation resulted in a charge to profit and loss, to increase the liability, of £216,461 in 2024.

Based on the current repayment schedule, the club is contributing £60,744 per annum against this liability.

The Club currently has 1 employee who is a member of the scheme (2024: 1) and pays total contributions of £60,744 p.a. which increases at 5.0% p.a. Based on the actuarial valuation assumptions detailed above, these contributions will be sufficient to pay off the Club's share of the deficit by 30 November 2027.

Under the terms and conditions of the multi-employer plan the entity cannot be liable to the plan for other entities' obligations.

Certain other employees of the Company, except for football players who are responsible for their own pension arrangements, are eligible to be members of defined contribution schemes. The assets of any schemes are held in funds separately from the Company.

23 Transfer fees payable/receivable

Under the terms of certain contracts with other football clubs in respect of player transfers, additional amounts would be receivable/payable by the Company if conditions as to future team selection are met. The maximum that could be receivable is £710,000 (2024 - £1,215,000). The maximum that could be payable is £5,570,000 (2024 - £3,895,000). These amounts have not been provided for in the financial statements. These amounts do not include various payments or receipts that are determinable only on circumstances which are distant or outside the direct control of the parties to the contract and the player in question.

24 Ultimate controlling party
