Football Performance

After the success in winning the League 1 title in 2024, we returned to the Championship for the first time since 2011-12.

We had a busy pre-season signing five out-of-contract players - Josh Murphy, Jordan Williams, Andre Dozzell, Matt Ritchie, Jordan Archer and six permanent players signed for transfer fees; Abdoulaye Kamara, Elias Sorensen, Ibane Bowat, Nicolas Schmid, Harvey Blair and Jacob Farrell.

In addition, the club completed three loan signings during the summer transfer window - Freddie Potts, Mark O'Mahony and Sammy Silvera.

We were provided with a testing start to our new Championship campaign with early fixtures against many teams recently in the Premier League. Leeds United, Luton Town, Burnley and Sheffield United were amongst four of our first seven opponents. That challenge then intensified with several injuries to key players. Despite some good performances we struggled to get an elusive first victory until we won at Queens Park Rangers in October, to take us off the bottom of the table.

The unexpected early return of Colby Bishop in November after summer heart surgery provided a significant morale boost to both the team and supporters with Colby's return marked as a goal-scoring substitute in our home game against Preston North End. This also marked a change in form and we subsequently amassed 13 wins and 44 points from our remaining 31 matches. After occupying a bottom three league placing for the early part of the season, we escaped the drop zone with victory at home to Middlesbrough in mid-January and went on to maintain our Championship league status with two games to spare, with a victory against Watford on Easter Monday.

We added to the squad in the January transfer window with the loan signings of Rob Atkinson, Isaac Hayden, Adil Aouchiche, Kaide Gordon; and permanent signings for transfer fees of Hayden Matthews, Thomas Waddingham, Cohen Bramall and Ben Killip. Following the closure of the January transfer window, we signed out of contract Alex Milosevic to provide further defensive cover.

We exited the third round of the FA Cup at Wycombe Wanderers. In the EFL Cup, we were defeated in the first round by Millwall.

Academy
The Academy has continued to focus on player recruitment and development and whilst the development cycle can take several years, we are beginning to see evidence of progress.

Harry Clout made an FA Cup debut and became the first U18 player since the 2021-22 season to complete a debut in both league and cup competitions and Harry was offered a full professional contract at the end of the season.

We have invested an incredible amount of energy and time in enhancing the governance of the Academy wide operation. This has involved the creation and implementation of a multi-year strategic plan, stretching departmental KPI's and a coaching and off-field player support programme that is enabling our players to be supported and stretched at the right moments.

This approach to the Academy programme was recognised with high praise when we received the results from our first full audit in four seasons from the Premier League audit company. The fantastic work by the staff over those four seasons enabled us to move all seven audit categories to at least the second highest level of 'Good' which was a real milestone and one that offers us the foundations to continue the development of the academy performance.

Off-field success has continued with our scholars achieving notable results in their educational courses, and a number of them successfully achieving A level passes.

The U18s players and staff also remain highly committed to supporting a local charity of choice each season, with time and support given on multiple occasions to help the charity carry out its incredible work.

Throughout the continual blended games programme that we offer, player development and player enjoyment has been evident. This staff observation was confirmed at end of season surveys with players and parents, and we believe the Academy has once again made progress over the season.

Portsmouth Women
After winning promotion from the FAWNL Southern Division title in May 2024, the team turned fully professional in July 2024 and in time to commence their campaign in the second division of the newly constituted Barclays Women's Super League.

It proved to be a tough start with the team taking just two points prior to Christmas and not winning a Championship game until March when they defeated fellow strugglers, Sheffield United at Bramall Lane. The team completed a "great escape" taking eleven points from their final six games to eventually finish six points clear of the relegation places.

In the FA Cup, Pompey Women defeated Luton Town in Round 3 and Blackburn Rovers in Round 4 before exiting in Round 5 after defeat by Sunderland.

In July 2025, the team moved its training base to Pompey in the Community's John Jenkins Stadium at Moneyfields. The club played three matches in 2024-25 at Fratton Park with the goal to play all matches at Fratton Park, once a new hybrid grass pitch is laid.

Whilst the core ambition remains continuity of representation in the top two divisions of women's professional football, we continue to strive to use the team and players to inspire and influence the promotion of football, sport, and healthy lifestyles amongst women and young girls across Portsmouth.

Fan Engagement 2024-25

Portsmouth Football Club's Fan Engagement approach seeks to continually improve the club's dialogue with supporters and ensure that their voices are heard and considered in decision-making processes that affect our fans. We value the input of our supporters into decisions that affect them most and are committed to creating a strong and positive relationships. Our approach is to deliver inclusivity and transparency.

To achieve that goal, the club works to engage supporters in a number of ways. We meet regularly with our official supporters' clubs including Central Branch, Armed Forces, Chichester, Isle of Wight, London, South-West, South Wales and Northern Blues throughout the season. We also meet with Portsmouth FC Women's Supporter Club which was formed last year and had three active meetings with club guests in 2024-2025.

Additionally, we continue to operate regular meetings per season with each of the following: The Tony Goodall Fans' Conference, Heritage & Advisory Board, Matchday Experience and Ticketing groups – all set up with the purpose of interacting across different areas of the club.

All these measures ensure we can engage, listen and learn from supporters on the areas that matter most to them. A list of our recognised supporter groups can be found on our website. We operate a multi-level engagement policy, over and above our fan group meetings. We held a fans' forum broadcast live on BBC Radio Solent at the beginning of the season to allow all those interested in attending to listen to, contribute and engage with a number of club personnel, including the CEO, the club captain and the first team head coaches of both the men's and women's teams.

We publish all minutes and outputs from our meetings of the Tony Goodall Fans' Conference on the club website to ensure all supporters are aware of the topics and discussions. Our Supporter Liaison Officer, Johnny Moore, also provides periodical updates for all our fans on the progress made against our Fan Engagement objectives.

The Tony Goodall Fans' Conference meetings throughout the season were attended by senior staff, including Chief Executive, Andrew Cullen; Chief Operating Officer, Tony Brown; Sporting Director, Rich Hughes and Chief Commercial Officer, Mark Judges.

Club Chairman, Michael Eisner attended all four Heritage & Advisory Board meetings, with Director, Eric Eisner. The CEO, Head Coach and Sporting Director attended the Pompey Supporters' Trust AGM in November 2024, with Michael Eisner and Eric Eisner sending a video message to the same AGM.

Interviews throughout the season are given by CEO Andrew Cullen to the wider fan-base through local media, including The Portsmouth News and BBC Radio Solent. The CEO's matchday programme notes are also publicised on the official club website.

Surveys throughout the season regarding travel modes to games and the matchday experience were conducted and will continue.

All complaints and enquiries to the club's 'info' email and official website are monitored by the Supporter Liaison Officer, with a five working day requirement for acknowledgement or reply by the SLO or the relevant member of staff. There is an updated and full complaints policy in the 2025-26 club customer charter.

In December 2024 the club was proud along with members from the PST and the Supporter Chair of the Tony Goodall Fans Conference to receive the Supporter Engagement Award at the Football Supporters Association (FSA) Awards. The club was also short listed for the EFL Fan Engagement Award in April.

Together Pompey
The club continues to promote and review its vision and values which were collectively developed by the Board and all levels of staff and launched in 2002 under the title, "TOGETHER POMPEY".

The Club's vision is - *To become a sustainable and inclusive football club, playing on a regular basis at the highest level. We will achieve this by everyone within our organisation, working hard together, whatever their role, to deliver the conditions for success and through taking pride in our club, our supporters, our city, and our community.*

Our Purpose - *To be proud custodians of the club and during our tenure to enhance and deliver an inclusive and sustainable environment, where we are all connected both internally and externally, where we seek to improve every day to deliver success and create fantastic memories through everyday excellence.*

Our Values -
We are Passionate and Embody the Pompey Spirit! - We give our best to everything we do. We work hard to deliver brilliant service, to create special moments, amazing experiences, and fantastic memories.

We Are Stronger Together - We are dedicated, inclusive and respectful to all our colleagues and partners. Through collaboration, and with a positive attitude, we will find solutions to everyday challenges.
We Are Honest - We are honest in the way we behave, feel, and think. We challenge respectfully, we are courageous, open, truthful, and transparent in our communications.

We Are Proud - We take pride in ourselves, our club, our supporters, our city, and our community. We are proud to wear the Pompey badge.

The values define the way the club behaves both internally and externally, how we communicate and perform and is central to staff recruitment processes and departmental and personal performance reviews.

The club has identified five strategic core pillars so that everyone, whatever their role at their club, can play their part in delivering our vision for Portsmouth Football Club. These pillars are: -

1. *To create conditions for success on the pitch.*
2. *To deliver an enjoyable, excellent, and safe experience and service for every supporter and visitor to Fratton Park.*
3. *To deliver community programs and initiatives that reflect the club's role, status, and responsibilities as a major influencer within the community of Portsmouth and to be a key player in terms of promoting equality, diversity and inclusion and environmental sustainability.*
4. *To deliver long-term financial sustainability.*
5. *To create an organization where our colleagues enjoy coming to work, feel valued and can realize their individual career objectives and personal goals*

The club commenced the process of recognising the loyalty of outstanding members of both full time and matchday staff by creating Long Service Awards in October 2024 for those with five, ten, fifteen and over twenty years' service. This was repeated to more qualifying staff in October 2025.

Fratton Park Stadium Development
After completing the Fratton Park development project in 2024 and bringing stadium capacity back to over 20,000, we continued the stadium work with a number of major projects in the close season including a new South Stand TV Gantry, North Stand mezzanines, additional bathrooms in the Milton End, a refurbished Victory Suite to develop our non-matchday business and enhanced the Fan Zone.

The addition of a new South Stand TV gantry was an extremely challenging engineering task given the lack of space and tightness to the pitch. We were indebted to Steve Haskins our long-standing club engineer and NJS Scaffolding, G&S Fabrications and Steve Cripps and all his team at PMC.

The new North Stand mezzanine improved supporter facilities with new bars and toilets, while additional toilets were also constructed in the home areas of the Milton End.

A new TV studio was created in the south corner of the Milton End and has quickly been established as the home of Pompey+, a new matchday show hosted by George Wedlake, with guest appearances from regular former players as guests. This has all helped to grow our overseas digital subscriber base.

The safety to supporters attending Fratton Park was further improved in summer 2025 with the installation of an independent water sprinkler system and tank. This will add resilience should a fire break out and simultaneously, the city's water mains pressure fail.

Pompey Health and Fitness Club & Training Ground
Revenue from Pompey Health and Fitness Club continued to deliver growth with stronger yields from membership subscriptions. We are grateful to our health club partner, Mosaic who provide excellence and professionalism to the operation of Pompey Health and Fitness Club.

The training ground saw further improvements to the pitches in the close season. The former first team building to the south of the training ground was gutted and refurbished to create a standalone Academy Hub with dressing rooms for home and away teams and match officials. New offices, common room for the scholars, medical rooms, safeguarding rooms and an analysis suite were all added. This move enabled the extension of the first team dressing room within the main building, a new and larger dressing room area for first team staff, as well as a new reception area to greet visitors to the training ground.

Trading Performance
Our new increased stadium capacity and return to the Championship enabled us to boost our average league attendance to 20,263, an uplift of 7% on the average from the previous season. We capped season tickets at 15,000 and maintained a waiting list for over 3,000 prospective season ticket holders. We thank our incredible supporters, not only for their passion and support which played a huge part in the consolidation of our hard-earned divisional status but which also delivered the best stadium occupancy rate in the Championship.

Piglets Pantry delivered another year of kiosk record-breaking sales, supported by the new extended upper mezzanine in the North Stand, higher attendances from visiting supporters and the enhanced Fan Zone and Victory Suite. We thank the Piglets ownership and all their staff for their passionate and continued commitment to delivery, quality and excellence.

Trading Performance (continued)
Sales from our merchandising operations were boosted by the opening of a pop-up store or Christmas trading in Gunwharf Quays from November 2024 to January 2025. A pop-up store at the same location was opened in October 2025 for another three-month trading period. We thank Nike and Just Sport for their support in delivering this facility.

We incurred a net profit of £393,000 on those players whose registrations were transferred out of the club during the year.

The traditional 'EBITDA' (Earnings before Interest Depreciation & Amortisation) showed a £1.4 million loss. The depreciation and amortisation charges of £2.7 million represent non-cash write-downs, which include depreciation on assets acquired when the club came out of administration, and £1.6m in respect of the write-down of intangible player assets.

Balance Sheet
The loss in the year and injection of loan funding from the owners reduced the Balance Sheet to a total of £22.1 million net assets with net current liabilities of £13.3m. It should be noted that included within creditors due less than one year on the balance sheet, is £5.5m of deferred income in relation to advance season ticket, hospitality and commercial income which will be released to the profit and loss as games are played during the 2025/26 season and hence will not require repayment.

During the year we invested £3.5m on improvements at the Training Ground and Fratton Park, so further securing foundations for the future long-term benefit of the club.

The club recorded a net cash outflow from operating activities before working capital adjustments of £1.8m for the year ended 30th June 2025.

During the year the owners, Tornante, provided £8.0m in loans adding to the £37m in equity share capital they have invested in the club to date.

Since the year end, the owners have invested a further £9m through the loan instrument to continue to support the club's operations both on and off the field.

Further details of the loan are set out within Note 14 of the financial statements.

No loan capital repayments or interest have been paid to date. The Directors have sought and received assurances that the owners do not intend to seek repayment of the sums due under the loan instrument until the Club's balance sheet reflects its ability to repay without negatively affecting Club operations.

The club remains free from external debt.

The Company is deemed to be a going concern due to the ongoing support of the Tornante Group.

Financial Risk Management Objectives and Policies

Principal Risks and Uncertainties
The principal risk to the business is the performance of the team which may affect revenue obtained from games and sponsorship. The cost base of the business, in common with other football clubs, is relatively fixed in the short-term, hence unfavourable movements in revenue can lead to a significant variation in profits.

The company is aware of this risk and addresses the issue by seeking to strengthen the squad through the development and acquisition of players. It is the aim of the directors to maximise the flexibility of the cost base to deal with unexpected revenue reductions.

Financial risk management
The directors have reviewed the financial risk management objectives and policies of the company. They do not believe there to be significant risks in this area. The company does not enter any hedging instruments as there are not believed to be any material exposures. It does not enter any financial instruments for speculative purposes.

Section 172 statement
Section 172 of the Companies Act 2006 requires directors to take into consideration the interests of stakeholders and other matters in their decision-making. The directors continue to have the highest regard to the interest of the Club's employees, supporters, commercial partners and other stakeholders.

Community
The Club and its award-winning charity partner Pompey in the Community remain at the heart of the community, working to engage with a wide range of supporter demographics through various programmes to promote education, healthy living and sporting participation and achievement among vulnerable and disadvantaged people of all ages. We were delighted to see Pompey in the Community complete their move to the new John Jenkins Stadium during the year with both new pitches becoming operational to serve PITC broad ranging community objectives.

Club employees
Employee wellbeing is of the utmost importance to the club. We communicate regularly to all staff with useful guidance regarding their mental and physical wellbeing. We also operate an Employee Assistance Scheme managed by a third party which allows our employees to receive confidential support on range of personal matters.

Supporter engagement
The club is committed to a robust consultative process with its supporters, as disclosed in the section entitled 'Fan Engagement 2024-25'.

Business Relationships
The club continues to maintain and develop strong relationships with all our commercial partners, suppliers and other stakeholders via direct engagement for the sustainable growth of the club.

Portsmouth Football Club Carbon Footprint Statement
The club continued its commitment to developing to improving sustainability and environmental awareness throughout the club across our properties at Fratton Park, Pompey Health and Fitness Club and the Training Ground.

A club wide working environmentally sustainable Working Group, established in 2023 under the leadership of the CEO, continues to meet with departments across the club represented on this working group. Our external operating partners from Pompey in the Community, Piglets Pantry, Pompey Health and Fitness Club and Just Sport are also represented on this Working Group.

In summer 2025, the club was awarded EFL Green Club 'Silver' status. EFL Green Clubs is a League-wide voluntary scheme, delivered in partnership with GreenCode, supporting clubs to improve their environmental practices and operations.

This award recognised the club's concentrated effort to implement environmentally sustainable practices across its properties.

This includes creating green spaces to help develop biodiverse areas and encourage wildlife; working towards an annual reduction in energy consumption; providing a number of vegan options for players and staff at the training ground and at the stadium on a matchday; offering a range of sustainable travel options for staff and visitors, with EV charging points set to be installed; working with local suppliers to reduce our environmental impact; water saving measures being put in place, with stewards and the academy provided with reusable water bottles and water fountains being installed; and waste management measures improved, with different bins provided for supporters and Piglet's Pantry donating unused matchday food to charity groups.

We recognise that Portsmouth is an island city – one situated within a low-lying coastal environment and at acute risk from climate change. The football club is at the heart of the city, with a privileged opportunity to take a lead in developing a culture with suppliers, supporters, the community and employees, where environmental sustainability becomes central to everything we do.

Energy and Carbon Report
The Company has gathered data regarding scope one, two and three carbon emissions (as defined by the GHG Protocol) for the financial year spanning 1 July 2024 to 30 June 2025 from its UK Operations for inclusion in Company Reporting (2020) as defined by the requirements of the Streamlined Energy and Carbon Reporting (SECR) legislation.

The company has consumed more than 40,000 kWh of energy in this reporting period, as a result it does not qualify as a low energy user under these regulations and is required to report on its emissions, energy consumption or energy efficiency activities.

These are set out below:

	2025 kWh	2024 kWh
Energy consumption		
Aggregate of energy consumption in the year	1,349,348	2,032,205
- Gas combustion	1,951,509	1,493,207
- Electricity purchased	288,598	180,614
- Fuel consumed for transport		
	3,589,455	3,706,026

Energy and Carbon Report *(continued)*

Emissions of CO2 equivalent	2025 metric tonnes	2024 metric tonnes
Scope 1 - direct emissions		
- Gas combustion	358.78	373.62
	358.78	373.62
Scope 2 - indirect emissions		
- Electricity purchased	238.83	381.66
Scope 3 - other indirect emissions		
- Fuel consumed for transport not owned by the company	80.16	37.78
Total gross emissions	677.77	793.06
Intensity ratio		
Tonnes CO2e per match	14.12	14.96

Quantification and reporting methodology

We have followed the 2019 HM Government Environmental Reporting Guidelines. We have also used the GHG Reporting Protocol – Corporate Standard and have used the 2025 UK Government's Conversion Factors for Company Reporting.

Intensity measurement

The combined Scope One to Three Carbon Emissions for the period was recorded at 677.78 tCO2e (2024: 793.06 tCO2e). The energy consumed in the period is 3,589,455 kWH (2024: 3,706,026 kWH) with 38% (2024: 40%) relating to electricity, 54% (2024: 55%) from the use of gas for heating and the remainder derived from transport fuel. The Specific Carbon Consumption (SCC) for the period is calculated at 14.12 tonnes CO2e per match (2024: 14.96).

Measures taken to improve energy efficiency

Measures and strategies implemented to improve our energy efficiency have been referred to within the Strategic Report.

On behalf of the board

Mr E Eisner
Director

19 December 2025

DIRECTORS' REPORT

FOR THE YEAR ENDED 30 JUNE 2025

The directors present their annual report and financial statements for the year ended 30 June 2025.

Principal activities

The principal activity of the company continued to be that of operating a professional football club.

Charitable contributions

The company makes donations to registered charities in the form of autographed kit, equipment and other memorabilia as well as providing substantial support to charities own fundraising activities on match days.

Results and dividends

The results for the year are set out on page 17.

No ordinary dividends were paid. The directors do not recommend payment of a final dividend.

Directors

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

Mr. M Catlin
Mr M Eisner
Mr E Eisner
Mr B Eisner
Mr A Eisner
Mr A Redman (Resigned 18 July 2025)

Disabled persons

The company actively encourages applications for employment from disabled people where the requirements of the job can be adequately fulfilled by that person. Where existing employees become disabled, it is the company's policy to make reasonable adjustments wherever practicable in order to provide continuing employment under normal terms and conditions and to provide training and career development and promotion to disabled employees wherever appropriate.

Employee involvement

The company's policy is to consult and discuss with employees, through unions, staff councils and at meetings, matters likely to affect employees' interests.

Information about matters of concern to employees is given through information bulletins and reports which seek to achieve a common awareness on the part of all employees of the financial and economic factors affecting the company's performance.

Auditor

The auditor, TC Group, is deemed to be reappointed under section 487(2) of the Companies Act 2006.

Statement of directors' responsibilities

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the company's auditor is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the company's auditor is aware of that information.

On behalf of the board

Mr E Eisner
Director

19 December 2025

PORTSMOUTH COMMUNITY FOOTBALL CLUB LIMITED

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF PORTSMOUTH COMMUNITY FOOTBALL CLUB LIMITED

Opinion

We have audited the financial statements of Portsmouth Community Football Club Limited (the 'company') for the year ended 30 June 2025 which comprise the statement of comprehensive income, the balance sheet, the statement of changes in equity, the statement of cash flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 30 June 2025 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the Strategic report and Directors report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of our audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Extent to which the audit was considered capable of detecting irregularities, including fraud

The objectives of our audit, in respect to fraud, are: to identify and assess the risks of material misstatement of the financial statements due to fraud; to obtain sufficient appropriate audit evidence regarding the assessed risks of material misstatement due to fraud, through designing and implementing appropriate responses; and to respond appropriately to fraud or suspected fraud identified during the audit. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and its management.

Our approach was as follows:

- We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience, and through discussion with the directors and other management (as required by auditing standards), and discussed with the directors and other management the policies and procedures regarding compliance with laws and regulations;
- We considered the legal and regulatory frameworks directly applicable to the financial statements reporting framework (FRS 102 and the Companies Act 2006), the EFL Regulations and the relevant tax compliance regulations in the UK;
- We considered the nature of the industry, the control environment and business performance, including the key drivers for management's remuneration;
- We communicated identified laws and regulations throughout our team and remained alert to any indications of non-compliance throughout the audit;
- We considered the procedures and controls that the company has established to address risks identified, or that otherwise prevent, deter and detect fraud; and how senior management monitors those programmes and controls.

Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Where the risk was considered to be higher, we performed audit procedures to address each identified fraud risk. These procedures included: testing manual journals; reviewing the financial statement disclosures and testing to supporting documentation; performing analytical procedures; and enquiring of management, and were designed to provide reasonable assurance that the financial statements were free from fraud or error.

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations (irregularities) is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation. We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

A further description of our responsibilities is available on the Financial Reporting Council's website at: https://www.frc.org.uk/library/standards-codes-policy/audit-assurance-and-ethics/auditors-responsibilities-for-the-audit/. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

1 Accounting policies

Company information

Portsmouth Community Football Club Limited is a private company limited by shares incorporated in England and Wales. The registered office is Fratton Park, Frogmore Road, Portsmouth, Hampshire, United Kingdom, PO4 8RA.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary a mounts in these financial statements are rounded to the nearest £'000.

The financial statements have been prepared on the historical cost convention. The principal accounting policies adopted are set out below.

1.2 Going concern

As set out in the Directors' Responsibilities Statement on page 12, in preparing these financial statements the directors are required to prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The profitability of Portsmouth Community Football Club Limited ("PCFC") is dependant on a number of factors both in and out of PCFC's control, but the principal factor is the success of the team. PCFC currently has no external lending facilities in place and operates entirely from its bank current account to meet its commitments as they fall due, receiving further funding from the shareholder ("the Owners") periodically to assist with working capital and continued investment in PCFC's infrastructure. At the balance sheet date, PCFC had received a total of £45 million of funding from the Owners, £37 million of which had been converted into share capital, with £8 million currently provided via a loan instrument.

Although these financial statements show net current liabilities of £13 million, £8 million of this balance relates to loans from the Owners for which the directors are confident that no repayment will be requested for at least a period of 12 months from the date of approval of these financial statements, and £5 million relates to deferred income balances to be released in the 2025/26 season for which there is no cash outflow requirement.
In assessing the appropriateness of the going concern assumption, PCFC have produced cash flow forecasts that extend to the end of the 2026/27 football season, taking into account several potential scenarios to reflect the inherent uncertainty of changes to PCFC's league position. Within the scenarios forecasted, PCFC acknowledges that further financial resources will be required from the Owners, and although such funding is not contracted at this time, the directors believe that sufficient funds will be made available as required.

Based on the cash flow forecasts prepared, and considering the reasonably foreseeable scenarios expected in relation to the ongoing football season and expectation for the subsequent season, together with the availability of further funding from the Owners as required, the directors are satisfied that PCFC has sufficient resources to continue to meets its obligations as they fall due. Accordingly, the directors have concluded that it is appropriate for the financial statements to be prepared on the going concern basis.

1 Accounting policies **(Continued)**

1.3 Turnover

Turnover represents the net amount receivable from football and related commercial activities, excluding transfer fees receivable, and is stated net of VAT. Income from broadcasting, match days and those elements of commercial activities relating to matches is recognised when the related matches are played. Income from advance ticket sales, including season tickets, is deferred accordingly. Other commercial income is recognised on a receivables basis.

1.4 Intangible fixed assets - player registrations

Player costs

The costs associated with acquiring players' registrations or extending their contracts are capitalised as intangible assets and amortised, in equal installments, over the period of the respective players' contracts. Where a contract is renegotiated prior to the expiry of its original term, the net book value at that time, and any new costs relating to the contract extension, are amortised over the remaining revised contract life.

Under the conditions of certain transfer agreements or contract renegotiations, further fees will be payable in the event of the players concerned making a certain number of first-team appearances or on the occurrence of certain other specified future events. Liabilities in respect of these additional transfer fees are accounted for, as provisions, when it becomes probable that the number of appearances will be achieved or the specified future events will occur.

Provision is made for any impairment and player registrations are written down for impairment when the carrying amount exceeds the amount recoverable through use or sale.

Signing on fees are charged evenly to the profit and loss account over the period of the player's contract

Profit or loss on disposal of player's registrations

Profits or losses arising on the disposal of players' contracts are credited or charged to the profit and loss account in the year in the player is sold. They are calculated as the difference arising between the transfer fees receivable and the net book value of the contracts at the time of this disposal. Any excess of net book value of a player's contract over its net realisable value is taken to the profit and loss account as and when it arises.

Amortisation

Amortisation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Player Registrations	straight line over the period of the contracts
Trademarks	5 years straight line

1.5 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Assets under construction are accounted for at cost incurred to the balance sheet date. They are not depreciated until the accounting period in which they are brought into use.

1 **Accounting policies** **(Continued)**

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Fratton Park stadium	50 years straight line
PHFC & Training ground	50 years straight line
Investment property	Not depreciated
Fixtures, fittings, plant & equipment	4-10 years straight line
Motor vehicles	4 years straight line

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

Investment property, which is property held to earn rentals and/or for capital appreciation, is initially recognised at cost, which includes the purchase cost and any directly attributable expenditure. Subsequently it is measured at fair value at the reporting end date. Changes in fair value are recognised in profit or loss.

1.6 Impairment of fixed assets

At each reporting period end date, the company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Recognised impairment losses are reversed if, and only if, the reasons for the impairment loss have ceased to apply. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

1.7 Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

1 **Accounting policies** **(Continued)**

1.8 Cash and cash equivalents

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.9 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's balance sheet when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Basic financial liabilities

Basic financial liabilities, including creditors, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

1.10 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

1 **Accounting policies** **(Continued)**

1.11 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

Deferred tax

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset when the company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

1.12 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

1.13 Retirement benefits

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

1 Accounting policies **(Continued)**

1.14 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessees. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets at the lower of the assets fair value at the date of inception and the present value of the minimum lease payments. The related liability is included in the balance sheet as a finance lease obligation. Lease payments are treated as consisting of capital and interest elements. The interest is charged to profit or loss so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Rentals payable under operating leases, including any lease incentives received, are charged to profit or loss on a straight line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the leases asset are consumed.

1.15 Government grants

Government grants are recognised at the fair value of the asset received or receivable when there is reasonable assurance that the grant conditions will be met and the grants will be received.

Deferred government grants in respect of capital expenditure are treated as deferred income and are credited to the profit and loss account over the estimated useful life of the assets to which they relate.

A grant that specifies performance conditions is recognised in income when the performance conditions are met. Where a grant does not specify performance conditions it is recognised in income when the proceeds are received or receivable. A grant received before the recognition criteria are satisfied is recognised as a liability.

1.16 Foreign exchange

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting end date. Gains and losses arising on translation are included in the profit and loss account for the period.

2 Judgements and key sources of estimation uncertainty

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

2 Judgements and key sources of estimation uncertainty (Continued)

Key sources of estimation uncertainty

The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are as follows.

Depreciation of tangible fixed assets

The company establishes a reliable estimate of the useful life of tangible fixed assets from their acquisition. This estimate is based on the expected use of the assets, any legal, regulatory or contractual provisions that can limit useful life and historical evidence of the useful life of similar assets.

3 Turnover and other revenue

An analysis of the company's turnover is as follows:

	2025	2024
	£'000	£'000
Turnover		
Matchday	8,192	6,883
Broadcasting	11,564	2,492
Commercial and sponsorship	2,295	1,831
Other football related income	827	865
Non-football income	1,690	1,548
	24,568	13,619

4 Loss before taxation

Loss for the year is stated after charging/(crediting):	2025 £'000	2024 £'000
Exchange gains	(7)	-
Depreciation of owned tangible fixed assets	1,071	889
Depreciation of tangible fixed assets held under finance leases	37	5
Amortisation of intangible assets	1,641	922
(Profit)/loss on disposal of intangible fixed assets	(393)	(34)
Government grants - Income released in respect of deferred captial grants	(48)	(17)
Operating lease charges	409	291

5 Auditor's remuneration

Fees payable to the company's auditor and associates:	2025 £'000	2024 £'000
For audit services		
Audit of the financial statements of the company	26	25
For other services		
Other assurance services	8	-
All other non-audit services	1	-
	9	-

6 Employees

The average monthly number of persons (including directors) employed by the company during the year was:

	2025 Number	2024 Number
Players	57	47
Office and football management	84	83
Total	141	130

In addition the company employed 176 (2024 - 145) casual staff on average, for matchdays.

The aggregate remuneration of all employees comprised:

	2025 £'000	2024 £'000
Wages and salaries	15,409	9,368
Social security costs	1,883	1,110
Pension costs	133	93
	17,425	10,571

The above payroll figures exclude the salary contributions made by the company in respect of players loaned in from other clubs. In 2025 this amounts to £1,926,000 (2024 - £408,000).

7 Directors' remuneration

	2025	2024
	£'000	£'000
Remuneration for qualifying services	50	50

Directors are also considered to be Key Management Personnel.

8 Interest payable and similar expenses

	2025	2024
	£'000	£'000
Interest on financial liabilities measured at amortised cost:		
Interest payable to group undertakings	157	-
Other finance costs:		
Interest on finance leases and hire purchase contracts	5	-
	162	-

9 Taxation

The actual charge for the year can be reconciled to the expected credit for the year based on the profit or loss and the standard rate of tax as follows:

	2025	2024
	£'000	£'000
Loss before taxation	(4,360)	(5,608)
Expected tax charge based on the standard rate of corporation tax in the UK of 25.00% (2024 - 25.00%)	(1,090)	(1,402)
Tax effect of expenses that are not deductible in determining taxable profit	110	110
Increase in unutilised tax losses carried forward	980	1,292
Tax expense for the year	-	-

Factors that may affect future tax charges

The company has approximately £26 million of tax losses carried forward available for future use. The related deferred tax asset has not been recognised as it does not meet the recognition criteria required by paragraph 29.7 of FRS 102.

10 Intangible fixed assets

	Player Registrations	Trademarks	Total
	£'000	£'000	£'000

At 30 June 2025	26,525	4,869	-	1,352	1,190	1	33,937
At 30 June 2024	22,505	4,826	1,312	1,352	946	9	30,949

The directors have recategorised the company's fixed assets to provide more relevant information to users of these finance statements.

11 Tangible fixed assets **(Continued)**

The net carrying value of tangible fixed assets includes the following in respect of assets held under finance leases or hire purchase contracts.

	2025	2024
	£'000	£'000
Fixtures, fittings, plant & equipment	213	-
Motor vehicles	3	8
	216	8

12 Debtors

	2025	2024
Amounts falling due within one year:	£'000	£'000
Trade debtors	635	294
Amounts due from fellow group undertakings	709	-
Other debtors	366	559
Prepayments and accrued income	1,173	1,415
	2,883	2,268

Trade debtors and accrued income include transfer fees receivable from other football clubs of £445,000 (2024 - £76,000) of which £185,000 (2024 - £nil) is receivable after more than one year.

Amounts due from fellow group undertakings, relate to monies provided by the Owners for the specific purpose of funding Portsmouth Women's Community Football Club Limited. For administrative purposes the monies were physically paid through the company and hence are shown within debtors at the balance sheet date within these financial statements. The Owners have subsequently confirmed that it was always their intention that such funds should have been paid directly to Portsmouth Women's Community Football Club Limited and not through this company, and accordingly have subsequently signed an agreement to offset these amounts from the company's own borrowings (shown in Note 14), reducing the debtor and creditor by the same amount. The agreement being signed after the balance sheet date is a non-adjusting event in accordance with Section 32 of FRS 102 and hence the offset is not shown within these financial statements.

13 Creditors: amounts falling due within one year

	Notes	2025 £'000	2024 £'000
Obligations under finance leases	**16**	85	11
Other borrowings	**14**	8,000	-
Trade creditors		1,294	1,008
Taxation and social security		1,360	950
Deferred income	**19**	5,476	5,303
Other creditors		1,263	550
Accruals		756	1,077
		18,234	8,899

Trade creditors and accruals include transfer fees and other associated costs in relation to the acquisition of players' registrations of £930,000 (2024 - £325,000) of which £nil (2024 - £nil) is payable after more than one year.

14 Loans and overdrafts

	2025 £'000	2024 £'000
Loans from group undertakings	8,000	-
Payable within one year	8,000	-

The loans from group undertakings have been provided by the Owners and are unsecured with the principal and interest being repayable on demand. The Club understands that although the Owners ultimately expect to be repaid on the debt and accrued interest, that they have no intention to demand repayment at the present time or before the Club's balance sheet reflects its ability to repay without negatively affecting Club operations. Interest accrues on the loan monthly at the Applicable Federal Rate as published by the United States of America Internal Revenue Service in accordance with Section 7872(e)(2) of the Internal Revenue Code of 1986 and compounds on a biannual basis.

Subsequent to the balance sheet date a further £9 million of funds has been provided by the Owners to the company during the period to December 2025, via the loan instrument, to help fund the football clubs operations.

15 Creditors: amounts falling due after more than one year

	Notes	2025 £'000	2024 £'000
Obligations under finance leases	**16**	107	-
Deferred income	**19**	2,358	2,406
Other creditors		-	100
		2,465	2,506

Deferred income relates to monies the company received towards specified capital expenditure, which qualified to be accounted for as government grants. The income is released to the profit and loss account evenly over the useful life of the assets acquired, to match the depreciation of those specified assets purchased using the proceeds.

16 Finance lease and hire purchase obligations

Future minimum lease payments due under finance leases and hire purchase contracts:	2025 £'000	2024 £'000
Within one year	91	12
In two to five years	116	-
	207	12
Less: future finance charges	(15)	(1)
	192	11

Obligations under finance leases are secured creditors, secured on the assets to which they relate.

17 Deferred taxation

Deferred tax assets and liabilities are offset where the company has a legally enforceable right to do so. The following is the analysis of the deferred tax balances (before offset) for financial reporting purposes:

Balances:	2025 £'000	2024 £'000
Fixed asset timing differences	(1,398)	(1,675)
Tax losses available	1,398	1,675
	-	-

17 Deferred taxation **(Continued)**

The deferred tax asset arising on the tax losses available for future use has been capped to offset the deferred tax liability arising on the fixed asset timing differences.

18 Retirement benefit schemes

	2025	2024
Defined contribution schemes	**£'000**	**£'000**
Charge to profit or loss in respect of defined contribution schemes	133	93

The company operates a defined contribution pension scheme for all qualifying employees. The assets of the scheme are held separately from those of the company in an independently administered fund.

19 Deferred income

	2025	2024
	£'000	**£'000**
Arising from government grants	2,358	2,406
Other deferred income	5,476	5,303
	7,834	7,709

Deferred income is included in the financial statements as follows:

	2025	2024
	£'000	**£'000**
Current liabilities	5,476	5,303
Non-current liabilities	2,358	2,406
	7,834	7,709

20 Share capital

	2025	2024	2025	2024
Ordinary share capital	**Number**	**Number**	**£'000**	**£'000**
Issued and fully paid				
Ordinary shares of £1 each	37,005,673	37,005,673	37,006	37,006
Heritage share of 0.0001p each	1	1	-	-

20 Share capital **(Continued)**

The Ordinary shares, which are held exclusively by Portsmouth FC LLC, carry full voting rights and participation rights over the equity of the company.

The Heritage share, which is held by Pompey Heritage Share Holdco Limited, does not entitle the holder to voting rights in the company, or to receive dividends from the company.

21 Operating lease commitments

Lessee

At the reporting end date the company had outstanding commitments for future minimum lease payments under non-cancellable operating leases, which fall due as follows:

	2025	2024
	£'000	£'000
Within one year	247	295
Between two and five years	338	322
In over five years	1,376	1,428
	1,961	2,045

Lessor

The operating leases represent leases of properties to third parties. The primary lease expires in 2025 and rentals are fixed for the duration. There are no options in place for either party to extend the lease terms. Other leases have lapsed into rolling monthly rental agreements, and as such, the disclosed amounts for these leases are limited to one month's receivable rent in line with the notice period stipulated within the agreements.

At the reporting end date the company had contracted with tenants for the following minimum lease payments:

	2025	2024
	£'000	£'000
Within one year	21	40

22 Capital commitments

Amounts contracted for but not provided in the financial statements:

	2025	2024
	£'000	£'000
Acquisition of tangible fixed assets	588	1,900

The amounts disclosed above relate to the completion of the major stadium works development of the Fratton Park stadium and further works on the Pompey Health & Fitness Club training complex.

23 Financial commitments, guarantees and contingencies

Under the terms of certain contracts for the acquisition of players' registrations, further amounts may become payable by Portsmouth Community Football Club Limited ("PCFC") if certain performance clauses within those contracts are met. In accordance with the accounting policy for Player costs, any additional fees which may become payable under these agreements, will be accounted for in the year that the criteria are met. At the balance sheet date the total amount payable under these performance clauses, should all the criteria be met, was £2,075,000 (2024 - £340,000), of which since the balance sheet date £94,000 has crystallised. Once the criteria are met amounts in relation to existing or new registrations will be capitalised and those relating to disposed registrations will be recognised in the profit and loss account.

Player registration acquisition agreements may also contain sell-on clauses that may result in the payment of future amounts on the disposal of a players' registration. These are based on future transfer fees meaning their estimation is not practicable, and hence no provision is included within these financial statements.

Under the terms of certain contracts for the disposal of players' registrations, future amounts may be received by PCFC as a result of performance clauses. As at the balance sheet date, the maximum amount that could be received is £5,850,000 (2024 - £100,000). Since the reporting date £nil has crystallised and will be recognised in the profit and loss account for the year ended 30 June 2026.

Player registration disposal agreements may also contain sell-on clauses that may result in the receipt of future amounts. The active clauses are based on future transfer fees meaning their estimation is not practicable at the balance sheet date.

24 Related party transactions

In accordance with Section 33.1A of FRS 102 the company has taken exemption from disclosing transactions and balances between group undertakings which are wholly owned by members of the group.

The company has provided a £328,000 (2024 - £328,000) loan to Pompey In The Community, a registered charity in which the company is closely related with. The loan is interest free and does not require repayment until February 2030.

25 Ultimate controlling party

Portsmouth Community Football Club Ltd (the Club) is wholly-owned by Portsmouth FC LLC of which The Tornante Company LLC holds 100% of the voting rights. The Tornante Company LLC is wholly-owned by Michael Eisner who is the only holder of a 'Significant Interest' in the Club (as defined in the English Football League Regulations).

26 Cash generated from operations

	2025 £'000	2024 £'000
Loss for the year after tax	(4,360)	(5,608)
