Total equity			(2,210,664)		(1,647,558)

The directors of the company have elected not to include a copy of the profit and loss account within the financial statements.

These financial statements have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies regime.

The financial statements were approved by the board of directors and authorised for issue on 3/12/2... and are signed on its behalf by:

R Couhig
Director

Company Registration No. 05132509

1 Accounting policies

Company information

Wycombe Wanderers Football Club Limited is a private company limited by shares incorporated in England and Wales. The registered office is Adams Park, Hillbottom Road, Sands, High Wycombe, Buckinghamshire, HP12 4HJ.

These financial statements are for the 13 month period ended 31 July 2020. The comparative is for the year ended 30 June 2019.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies regime. The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show a true and fair view.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

1.2 Going concern

The financial statements have been prepared on a going concern basis. The directors have reviewed and considered relevant information, including the annual budget and future cash flows in making their assessment. In particular, in response to the COVID-19 pandemic, the directors have tested the cash flow analysis to take into account the impact on the business of possible scenarios brought on by the impact of COVID-19, alongside the measures that they can take to mitigate the impact. Based on these assessments, given the measures that could be undertaken to mitigate the current adverse conditions, and the current resources available, the directors have concluded that they can continue to adopt the going concern basis in preparing the annual report and accounts.

1.3 Turnover

Turnover represents income from television rights, gate receipts, catering and other commercial activities, exclusive of value added tax.

Season tickets sold in advance of the following season are included in deferred income and accounted for as turnover in the season to which they relate.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer (usually on dispatch of the goods), the amount of revenue can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the entity and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

1.4 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Fixtures, fittings & equipment	5% - 25% per annum on a straight line basis
Motor vehicles	25% per annum on a straight line basis

1 Accounting policies **(Continued)**

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

1.5 Impairment of fixed assets

At each reporting period end date, the company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Recognised impairment losses are reversed if, and only if, the reasons for the impairment loss have ceased to apply. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

1.6 Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the stocks to their present location and condition.

At each reporting date, an assessment is made for impairment. Any excess of the carrying amount of stocks over its estimated selling price less costs to complete and sell is recognised as an impairment loss in profit or loss. Reversals of impairment losses are also recognised in profit or loss.

1.7 Cash and cash equivalents

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.8 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's balance sheet when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

1 Accounting policies **(Continued)**

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Basic financial liabilities

Basic financial liabilities, including creditors, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

1.9 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of transaction costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recognised in profit or loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

1.10 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

Deferred tax

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date except that the recognition of deferred tax assets is limited to the extent that the company anticipates making sufficient taxable profits in the future to absorb the reversal of the underlying timing differences.

Deferred tax balances are not discounted.

1 Accounting policies **(Continued)**

1.11 Provisions

Provisions are recognised when the company has a legal or constructive present obligation as a result of a past event, it is probable that the company will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting end date, taking into account the risks and uncertainties surrounding the obligation. Where the effect of the time value of money is material, the amount expected to be required to settle the obligation is recognised at present value. When a provision is measured at present value, the unwinding of the discount is recognised as a finance cost in profit or loss in the period in which it arises.

1.12 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

1.13 Leases

Rentals payable under operating leases, including any lease incentives received, are charged to profit or loss on a straight line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the leases asset are consumed.

2 Employees

The average monthly number of persons (including directors) employed by the company during year was 147 (2019 - 178).

3 Tangible fixed assets

	Plant and machinery etc £
Cost	
At 1 July 2019	2,353,225
Additions	83,934
At 31 July 2020	2,437,159
Depreciation and impairment	
At 1 July 2019	2,246,824
Depreciation charged in the period	43,990
At 31 July 2020	2,290,814
Carrying amount	
At 31 July 2020	146,345
At 30 June 2019	106,401

4 Debtors

Amounts falling due within one year:	**2020 £**	**2019 £**
Trade debtors	335,673	140,984
Amounts owed by group undertakings	-	698,707
Other debtors	78,258	123,423
	413,931	963,114

5 Creditors: amounts falling due within one year

	2020 £	**2019 £**
Trade creditors	582,039	425,851
Amounts owed to group undertakings	-	118,040
Taxation and social security	1,162,221	322,766
Other creditors	2,981,841	1,595,277
	4,726,101	2,461,934

6 Creditors: amounts falling due after more than one year

	2020	2019
	£	£
Other creditors	152,400	230,784

7 Provisions for liabilities

	2020	2019
	£	£
Provision for dilapidations	190,819	190,819

8 Capital Commitments

Following the football club's promotion to the Championship in July 2020 at the end of the extended 19/20 season, the company is committed to enhancing the Adams Park stadium to comply with EFL rules.
The post date expenditure will include floodlights, Hawkeye and a new media centre and costs are estimated at £375,000. The bulk of the these costs will be categorised as fixed assets.

9 Called up share capital

	2020	2019
	£	£
Ordinary share capital		
Issued and fully paid		
500 Founder shares of £1 each	500	500
2,107,403 (2019: 1,262,400) Ordinary shares of £1 each	2,107,403	1,262,400
400,000 (2019: 100,000) Voting shares of £1 each	400,000	100,000
1 (2019: 0) Enshrined rights share of £1 each	1	-
	2,507,904	1,362,900

During the year, 845,003 Ordinary shares (2019-Nil) were issued at par value.
In addition, 300,000 Voting shares (2019-Nil) were issued at a value of £1.06 per share and 1 Enshrined rights share (2019-Nil) was issued at par value.

The above issue of 300,000 Voting shares has generated a share premium of £18,000. In addition to this, legal expenses amounting to £59,332 have been deducted from the share premium account.

10 Audit report information

As the income statement has been omitted from the filing copy of the financial statements, the following information in relation to the audit report on the statutory financial statements is provided in accordance with s444(5B) of the Companies Act 2006:

The auditor's report was unqualified.
The senior statutory auditor was Gary A Heywood.
The auditor was Haines Watts.

11 Operating lease commitments

Total operating lease commitments which are not included on the balance sheet amount to £150,000 (2019: £102,600).
